

Skylight: Secure OSINT Investigation Platform

G-Cloud 15 Pricing Document

Public Cloud Platform & Licence Costs

Skylight is designed to be highly flexible. Unlike traditional "per user" licensing, the Public Cloud instance of Skylight separates user access from platform consumption to maximise cost-efficiency and encourage collaboration.

Unlimited Users: *The Skylight Platform Subscription grants your organisation an unlimited number of user accounts. Customers can onboard entire teams without incurring additional per-user licence fees.*

Per-Kiosk Fee: *Customers pay a fixed monthly subscription for each active Skylight Kiosk. It does not matter how many users use the Kiosk.*

Shared Usage Pool: *Actual usage is deducted from a centralised Pool of Usage Hours purchased by the customer. This pool is purchased at the start of the contract and is shared across all Kiosks and all Users. This means 50 users can share 5 Kiosks without penalty; you simply burn through the pool faster or slower depending on operational intensity.*

The pool is valid for the duration of the contract and can be topped up with additional blocks of hours at any time during the contract term to ensure uninterrupted service.

Exit Nodes: *Skylight Kiosks have access to the internet via our proprietary global network of unattributable Exit Nodes. The capabilities of these Exit Nodes are tiered and explained in the Managed Exit Node section below.*

Skylight Drive: *Skylight Drive is secure storage that is accessible by all kiosks. It can be used as a staging area for moving data from a Kiosk to a user's host computer, or it can be used as a collaboration space where files can be shared between Kiosks. It can also be used to store evidential recordings for longer than the standard Platform's 30 day default retention period.*

UK Mobile Numbers: *Skylight offers the ability for users to receive SMS messages directly to their Kiosks, thus removing the need to manage a pool of PAYG SIM cards. These phone numbers are real numbers and not virtual numbers that are rejected by online platforms. It is also possible for customers to port existing mobile numbers to Skylight. Porting existing numbers removes the obligation and effort of keeping them topped up. International numbers are available.*

The table below sets out the pricing for Skylight. It is followed by examples of real world pricing.

Item	Unit Price	Notes
Skylight Platform Licence	£1,200.00	Per year with unlimited concurrent users
Skylight Kiosk Licence	£300.00	Per Kiosk / Year
Skylight Kiosk Usage (1001+ hours) - London	£0.99	Per Hour (Prepaid Volume Rate)
Skylight Kiosk Usage (501 to 1000 hours) - London	£1.54	Per Hour (Prepaid Volume Rate)
Skylight Kiosk Usage (251 to 500 hours) - London	£1.82	Per Hour (Prepaid Volume Rate)
Skylight Kiosk Usage (PAYG) - London	£2.50	Per Hour
Skylight Drive Secure Storage (GB)	£12.00	Per GB / Year
UK Mobile Number	£107.64	Per Number / Year

Managed Exit Nodes

All our managed Exit Nodes offer unlimited data and unattributable static IP addresses. No additional software, appliances or configurations are required. A single Exit Node can be shared between multiple Skylight Kiosks or each Skylight Kiosk can be assigned a unique Exit Node.

Exit Node (Basic)

Best for general web browsing, accessing public news sites, and low-sensitivity open-source research. Some sophisticated sites (banking, streaming, social media login pages) may detect this as a proxy/VPN and present CAPTCHAs or block access.

Exit Node (Standard)

Best for standard OSINT investigations, accessing corporate websites, and long-term monitoring where a reputable consistent IP address is required to maintain access. Standard Exit Nodes offer better stability for creating accounts, but may still be flagged by highly sensitive sites as a proxy/VPN.

MIRRORMAZE COMMUNICATIONS

1 London Road Ipswich IP1 2HA UK
www.mirrormaze.io

Exit Node (Enhanced)

Best for False Online Persona management and accessing geo-restricted content or content protected by aggressive anti-bot and censorship technologies. Bypasses strict geo-blocks and anti-proxy filters that normally reject commercial VPNs.

Item	Unit Price	Notes
Exit Node (Basic)	£315.00	Per year
Exit Node (Standard)	£1,500.00	Per year
Exit Node (Enhanced)	£4,500.00	Per year

Global Proxy Data Bundles

Single point of API integration for all automated internet access. Skylight acts as a unified command layer for all automated traffic, abstracting the complexity of managing multiple third-party proxy providers. Included in the pricing:

Intelligent AI Routing (Smart-Switching) Our proprietary routing engine uses AI to optimise connection success rates in real-time.

Granular Request Routing: Tell the platform how traffic should be routed with headers in each request. Benefit from IP rotation through millions of IP addresses or sticky IP addresses that remain static.

Unattributable Infrastructure, all traffic is unattributable to the customer ensuring operational integrity and success.

Bundle Size	Unit Price (Per GB)	Bundle Price
50GB	£9.19	£459.38
100GB	£8.44	£843.75

Professional Services

Support and consultancy services.

Item	Unit Price	Notes
Consultancy	£950.00	Per Day
Technical Support	£350.00	Per Day
Training	£1,200.00	Per Day

Example Pricing

Team of 15 analysts that spend some of their day needing to visit websites that are not accessible using standard corporate IT equipment and infrastructure. They have 5 kiosks shared between them and can be used concurrently. It is assumed that between them they will spend 7 hours a day on Skylight. 7h x 21d x 12m = 1754h per year for the entire team.

Cost per user per year: £317.42

Item	Qty	Unit Price	Annual Total
Skylight Platform Licence	1	£1,200.00	£1,200.00
Skylight Kiosk Licence	5	£300.00	£1,500.00
Skylight Usage	1764	£0.99	£1,746.36
Exit Node (Basic)	1	£315.00	£315.00
		Total	£4,761.36
