Archiver Pricing Document

Overview

Archiver automatically moves documents and records from SharePoint Online to Azure blob storage to lower storage costs while offering an easy-to-use interface for users to retrieve and restore files to SharePoint Online without IT support. This helps organisations keep important files accessible without increasing SharePoint expenses.

Guaranteed ROI

By relocating 20 TB of inactive or governed content from SharePoint storage priced at £0.20 per GB per month into Azure Blob warm storage priced at £0.01 per GB per month, organisations save £0.19 per GB every month. With Archiver's unique pricing model of a 30 percent saving share, organisations are guaranteed a direct ROI every year in addition to the governance benefits Archiver provides.

Storage Volume	Archiver Cost P.A	Direct Savings P.A
10 TB	£7,004.16	£16,343.04
15 TB	£10,506.24	£24,514.56
20 TB	£14,008.32	£32,686.08
25 TB	£17,510.40	£40,857.60
Pricing and savings scale as storage volume increases*		

Minimum order value applies to repositories of 10 TB or larger.*

Professional services for data transformation or Archiver configuration are quoted separately.*
