Filer Pricing Document

Overview

Filer is Mizorix's Microsoft 365 native Electronic Document and Records Management solution, enhancing SharePoint Online with structured, compliant and user-friendly records management capabilities.

Pricing Introduction

All licensing prices listed are guaranteed under the G-Cloud 15 framework. Mizorix may adjust pricing in specific scenarios, often to benefit the customer, providing best-and-final offers that align with usage profiles and maximise ROI.

Licensing remains predictable as published with two optional pricing models. Professional services are scoped separately, with effort estimated once requirements are understood and charged using the standard day rates shown.
