Document

mizorix

**Document Management, Automation & AI
with Microsoft 365**

Overview

This pricing document outlines the consultancy services Mizorix provides to help organisations optimise, modernise and govern their SharePoint environments. As a specialist Microsoft 365 consultancy and Independent Software Vendor, Mizorix delivers structured, best-practice engagement models covering information architecture, migrations, governance, automation and ongoing support. Our pricing aligns with the transparent and predictable approach used across our Microsoft 365 offerings, with professional services scoped to clearly defined outcomes and estimated once requirements are understood. Consultancy may be delivered remotely or on-site as required, providing flexibility while ensuring exceptional quality and measurable value.
