

Pricing is based on an annual Software-as-Service Subscription, which covers all aspects of delivering the service, as outlined in the accompanying Service Definition. Pricing is per organisation, per year, unless otherwise stated.

It includes the option for a dedicated and branded innovation sandbox to host the apps created during the programme. The price does not include advertising and does there is no representation as to how many people will apply for an innovation programme using the innovation sandbox. All workshops are delivered solely to enable effective use of the Cogniss platform

The subscription price is based on the number of factors:

1. Whether a dedicated innovation sandbox or using a shared environment
2. Number of apps and innovators supported
3. Number of cohorts and whether structured workshops are delivered throughout the programme
4. Size and type of organisation

The price listed is for running a cohort of up to 20 innovators per year for a small regional innovation company, using a dedicated innovation sandbox.

Please note, all prices are exclusive of Value Added Tax.
