

Apple Devices Fast Track Setup & Deployment Service Definition

G-Cloud 15 | Framework Ref: RM1557.15

Apple Devices Fast Track Setup & Deployment

Our fast track deployment service utilises Jamf Pro, Jamf Connect, and Jamf Protect to integrate with your identity provider. As a Jamf Managed Service Provider we simplify deploying, updating, securing macOS and iOS devices. Customised solutions enable fine-tune the service to meet your specific requirements and enhance user experience.

Features:

- Integrate with Google Workspace, Entra ID, Okta or Azure.
- Secure user access seamlessly integrated with your existing identity provider.
- Protect sensitive data with advanced security using Jamf Protect.
- Deploy new devices efficiently with automated configuration settings.
- Keep systems up-to-date with hassle-free, automatic software updates.
- Enable secure development environments with EPM tools such as CyberArk.
- Device management with Jamf, Workspace One, Intune SOTI or Kandji.
- Customise solutions to precisely align with business operational requirements.
- Enhance user satisfaction with reliable device performance.
- Provide Zero Trust Network Access (ZTNA) for secure access.

Benefits:

- Simplifies IT management, increasing operational efficiency and oversight.
- Mitigates risk through enhanced security and system integrity.
- Strengthens defence against cybersecurity threats, protecting business assets.
- Enables zero-touch deployment, reducing IT workload and setup time.
- Standardised users across the latest software applications and versions.
- Provides complete visibility of the Apple IT estate, enhancing control.
- Reduces IT management time and effort with efficient problem resolution.
- Adapts seamlessly to business changes, supporting dynamic IT strategies.
- Improves end-user experience and productivity through reliable technology.
- Provides availability, ensuring critical support when needed most.

Pricing:

All pricing for services are based on our standard SFIA rate card (this can be separately downloaded). Where referenced, please note that any illustrated pricing scenarios are based on a minimum of 100+ user environments. Please contact us for further information if you have a requirement that sits outside of this guidance. All prices and rates are exclusive of VAT and in GBP.

Pricing Starting from

£14,499.00

Pricing is an estimate for one instance only.

About Postremo IT

Postremo IT is a managed service provider (MSP) that has been providing IT solutions to private companies, government organisations, and non-profit organisations since 2014.

We are experts in providing a broad range of managed services and support services that enable our clients in keeping up with the most recent technological trends and resolving IT-related issues. We take great satisfaction in our capacity to comprehend the particular requirements of any organisation and to provide tailored solutions that promote success.

Our vision

Relentlessly drive innovation with Postremo IT's future-oriented solutions, honing in on our Apple and Jamf product expertise. We build powerful, mistake-proof networks that bolster your business strategy. Embrace superior managed support services, where intuitive client-centric solutions are crafted with rapid precision, transcending beyond the conventional customer service norms.

Our mission

At Postremo IT, we craft advanced solutions, driven by evolving strategic themes, that will withstand the test of time. Our mission is to establish powerful solutions, rooted in objective design, that deliver flawless results. We are committed to creating swift and intuitive deliverables, prioritising personalised managed support over broad-scale customer service.
