

Pricing Document: Quality Assurance and Performance Testing Services

1. Overview

This pricing document defines the costs associated with Quality Assurance and Performance Testing Services. Pricing covers structured testing activities that validate functionality, reliability, performance, and scalability of cloud-based systems and applications.

All prices are exclusive of VAT unless stated otherwise.

2. Core Quality Assurance Services

2.1 Functional and Regression Testing

Service Item	Unit	Price
Functional test cycle	Per week	£6,000
Regression test cycle	Per week	£6,000
User acceptance testing support	Per week	£6,000

Included:

- Test planning and test case creation
 - Test execution and defect logging
 - Summary test report with recommendations
-

3. Performance and Load Testing

Service Item	Unit	Price
Performance baseline testing	Per week	£6,000
Load testing	Per week	£6,000
Stress testing	Per week	£6,000
Endurance (soak) testing	Per week	£6,000

4. Reliability and Resilience Testing

Service Item	Unit	Price
Failover and resilience testing	Per week	£6,000

Backup and restore validation testing	Per week	£6,000
---------------------------------------	----------	--------

Disaster recovery scenario testing	Per week	£6,000
------------------------------------	----------	--------

5. Onboarding and Test Setup Costs

Service Item	Unit	Price
Test onboarding and environment familiarisation	One-off	£1,500
Test environment setup and configuration	Per environment	£1,500

6. Data Extraction and Exit Costs

Service Item	Unit	Price
Export of test results and artefacts	One-off	£800
Secure deletion of test data	One-off	£350
Final quality and performance summary report	One-off	£500

7. Assumptions and Exclusions

- Prices assume non-production testing unless stated
 - Cloud infrastructure and tooling costs are excluded
 - Third-party test tool licences are excluded
 - Major application remediation is excluded
 - On-site testing is excluded unless agreed
-
