Pricing Document – CPC Project Services - OP1

Framework reference: RM1557.14

Pricing

CPC's OP1 software is an established product with an established and growing customer base. There are numerous options to configure and select the functionality which the tool provides. As a result it's not possible to provide a defined fixed price structure as this will vary depending upon the client needs, deployment environment and requirements.

A typical minimum contract value for this product is £2,000, excluding VAT.
