

Operation Platform One

One Platform for Data Integration

As systems experts, CPC excels in data integration from disparate sources. When it comes to data, we believe that the whole is greater than the sum of its parts, which is why OP1 is an adaptable, source agnostic platform to shape and drive value from the intersection of data.

One Platform for Operational Insight

OP1 enables greater operational responsiveness, with real-time data delivered in intuitive interfaces tailored to high demand environments. It reduces the time-to-decision by unlocking the full potential of all available data sources in one view. OP1 has the capability to improve processes and provide a more uniform approach to operational management by removing manual processes and judgments.

One Platform for Asset Management

Gain a true understanding of asset performance using richly integrated data provided by OP1. Build custom notifications to drive predictive maintenance workflows. Tap directly into long term trending to justify asset management decisions. Measure asset utilisation to drive business efficiency.
