

Your Catalyst For The
Next Digital Horizon

Wiz Digital Services Limited

G-Cloud 15

Service Definition Document : Master Data and
Reference Data Governance Support

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

Data Platforms, Analytics, And Information Management

This category addresses the growing need to treat data as a strategic asset rather than a by-product of systems. Common problems include fragmented data platforms, poor data quality, unclear ownership, and limited trust in analytics outputs.

Our approach integrates platform architecture, governance, and analytics enablement. We design modern cloud data platforms alongside clear information management frameworks, ensuring that data is accessible, secure, and fit for purpose.

Clients gain reliable data foundations that support analytics, reporting, and decision-making. This improves insight, reduces manual effort, and enables more confident use of data across the organisation.

Master Data And Reference Data Governance Support

Data Platforms, Analytics, and Information Management

This service supports organisations in governing master and reference data across cloud platforms. Wiz Digital defines governance structures, ownership models, and control processes to ensure critical data entities are managed consistently, supporting reliable operations, analytics, and public sector assurance requirements.

Service Overview

- Definition of master and reference data scope
- Design of ownership and stewardship models
- Governance decision-making and escalation structures
- Development of common data standards and definitions
- Design of data lifecycle and change controls
- Alignment with broader data governance frameworks
- Integration considerations for cloud data platforms
- Focus on data quality and consistency
- Identification of risks and governance gaps
- Clear governance documentation and handover

Service Features

- Improved consistency and reliability of key data
- Clear ownership and accountability for master data
- Reduced duplication across systems
- Improved data quality and reporting accuracy
- Better support for analytics and operations
- Reduced risk from unmanaged data changes
- Stronger governance of shared data assets
- Improved coordination across teams and platforms
- Increased confidence in critical data
- Sustainable foundation for master data governance
