

Your Catalyst For The
Next Digital Horizon

Wiz Digital Services Limited

G-Cloud 15

Service Definition Document : Red Hat OpenShift
Platform Enablement and Operations Support

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

G-Cloud 15 Service Offerings

- 1 Cloud Strategy, Architecture, and Advisory
- 2 Cloud Programme, Portfolio, and Delivery Governance
- 3 Cloud Migration and Modernisation Planning
- 4 Cloud Foundation and Platform Enablement
- 5 Cloud Migration and Transition Delivery Support
- 6 Data Platforms, Analytics, and Information Management
- 7 Cloud Security, Risk, and Assurance
- 8 Cloud Financial Management and Sustainability
- 9 Managed Cloud Services, and Operational Support
- 10 Quality Assurance, Testing and Service, Validation
- 11 Training, Enablement, and Knowledge Transfer
- 12 AI Platform Enablement, Governance, and Operations

4

Cloud Foundation And Platform Enablement

This category covers the design and implementation of the core cloud platforms on which services depend. Without a strong foundation, organisations often experience inconsistent security, spiralling costs, and operational fragility.

We design and implement cloud foundations that are secure by default, scalable, and aligned to organisational operating models. Platform enablement is automated, policy-driven, and designed to support both central governance and decentralised delivery teams.

Clients gain a stable, reusable platform that accelerates onboarding of workloads, improves security posture, and reduces operational overhead. Foundations are built to evolve, avoiding brittle designs that constrain future change.

Red Hat OpenShift Platform Enablement And Operations Support

Cloud Foundation and Platform Enablement

This service supports organisations enabling and operating Red Hat OpenShift platforms in cloud environments. Wiz Digital designs platform configurations and operational support models that ensure OpenShift clusters are secure, resilient, and ready for use, aligned with organisational governance and public sector assurance expectations.

Service Overview

- Design of Red Hat OpenShift platform architecture
- Configuration of clusters and environment standards
- Security and compliance baseline implementation
- Identity and access integration planning
- Networking, ingress, and connectivity support
- Definition of platform operations and support models
- Monitoring and logging enablement
- Resilience and availability considerations
- Validation of operational readiness
- Clear OpenShift documentation and handover

Service Features

- Secure and well-governed OpenShift platforms
- Reduced operational and configuration risk
- Improved reliability of container environments
- Clear ownership and support arrangements
- Better alignment with security requirements
- Faster enablement of containerised workloads
- Improved confidence in platform operations
- Reduced likelihood of platform instability
- Better coordination across delivery teams
- Sustainable foundation for container platforms
