

Your Catalyst For The
Next Digital Horizon

Wiz Digital Services Limited

G-Cloud 15

Service Definition Document : AI Service Security and
Data Protection Design

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

G-Cloud 15 Service Offerings

- 1 Cloud Strategy, Architecture, and Advisory
- 2 Cloud Programme, Portfolio, and Delivery Governance
- 3 Cloud Migration and Modernisation Planning
- 4 Cloud Foundation and Platform Enablement
- 5 Cloud Migration and Transition Delivery Support
- 6 Data Platforms, Analytics, and Information Management
- 7 Cloud Security, Risk, and Assurance
- 8 Cloud Financial Management and Sustainability
- 9 Managed Cloud Services, and Operational Support
- 10 Quality Assurance, Testing and Service, Validation
- 11 Training, Enablement, and Knowledge Transfer
- 12 AI Platform Enablement, Governance, and Operations

12

AI Platform Enablement, Governance, And Operations

This category supports organisations adopting AI capabilities within cloud environments, where operational, ethical, and governance considerations are often underdeveloped.

Our approach focuses on making AI operable and governable at scale. We design platforms, controls, and operating models that support responsible use, ongoing monitoring, and integration with existing cloud and data services.

Clients gain AI capabilities that are sustainable, secure, and aligned to organisational risk appetite. This enables innovation while maintaining trust, transparency, and operational control.

AI Service Security And Data Protection Design

AI Platform Enablement, Governance, and Operations

This service designs security and data protection controls for AI services operating in cloud environments. Wiz Digital defines secure architectures, access controls, encryption strategies, and sensitive data handling requirements for AI pipelines and runtime services. The outcome is a clear, implementable security design aligned with assurance and governance expectations.

Service Overview

- AI service security architecture and secure patterns
- Identity, access, and privilege control design
- Encryption and key management considerations
- Sensitive data handling, minimisation, and segregation
- Secure integration and API protection design
- Model artefact and pipeline security controls
- Threat and misuse-case analysis for AI services
- Logging, monitoring, and evidence design
- Compliance alignment and assurance readiness support
- Security documentation and operational handover guidance

Service Features

- Reduced risk of AI security and privacy incidents
- Improved protection of sensitive and regulated data
- Clear security controls for AI delivery teams
- Improved compliance and assurance readiness
- Reduced likelihood of misuse or exposure
- Increased confidence in deploying AI services
- Stronger governance of access to AI assets
- Improved auditability of AI operations
- Secure foundation for scaling AI capabilities
- Sustainable security practices for AI services
