Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

G-Cloud 15 Service Offerings

- 1 Cloud Strategy, Architecture, and Advisory
- 2 Cloud Programme, Portfolio, and Delivery Governance
- 3 Cloud Migration and Modernisation Planning
- 4 Cloud Foundation and Platform Enablement
- 5 Cloud Migration and Transition Delivery Support
- 6 Data Platforms, Analytics, and Information Management
- 7 Cloud Security, Risk, and Assurance
- 8 Cloud Financial Management and Sustainability
- 9 Managed Cloud Services, and Operational Support
- 10 Quality Assurance, Testing and Service, Validation
- 11 Training, Enablement, and Knowledge Transfer
- 12 AI Platform Enablement, Governance, and Operations

7

Cloud Security, Risk, And Assurance

This category supports organisations operating under heightened security, regulatory, or public accountability requirements. Buyers often need to balance innovation with assurance, without defaulting to risk-averse stagnation.

We embed security and risk management into cloud design and operations, rather than treating them as bolt-ons. Our services cover architecture, controls, assurance activities, and audit readiness, aligned to recognised standards and government expectations.

The outcome is improved security posture, clearer risk ownership, and stronger assurance for stakeholders. Clients are able to move faster with confidence, supported by evidence-based controls and defensible security decisions.

Cloud Security Architecture And Secure-By-Design Patterns

Cloud Security, Risk,
and Assurance

This service helps organisations embed security into cloud environments from the outset. Wiz Digital designs cloud security architectures and secure-by-design patterns that provide consistent, reusable approaches to protecting data, identities, and workloads while aligning with organisational and public sector security requirements.

Service Overview

- Design of cloud security architectures
- Definition of secure-by-design principles
- Development of reference security architectures
- Network and perimeter security patterns
- Identity and access security design
- Data protection and encryption patterns
- Secure application and workload patterns
- Alignment with cloud platform capabilities
- Consideration of threats and risks
- Clear security architecture documentation

Service Features

- Security embedded into cloud designs
- Reduced risk of configuration weaknesses
- Consistent security controls across services
- Improved protection of data and workloads
- Better alignment with organisational security policies
- Reduced likelihood of security incidents
- Faster delivery through reusable patterns
- Improved audit and assurance confidence
- Scalable and adaptable security architecture
- Strong foundation for secure cloud services
