Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

Cloud Security, Risk, And Assurance

This category supports organisations operating under heightened security, regulatory, or public accountability requirements. Buyers often need to balance innovation with assurance, without defaulting to risk-averse stagnation.

We embed security and risk management into cloud design and operations, rather than treating them as bolt-ons. Our services cover architecture, controls, assurance activities, and audit readiness, aligned to recognised standards and government expectations.

The outcome is improved security posture, clearer risk ownership, and stronger assurance for stakeholders. Clients are able to move faster with confidence, supported by evidence-based controls and defensible security decisions.

Cloud Security Posture Assessment And Remediation Backlog

Cloud Security, Risk,
and Assurance

This service helps organisations understand and improve their cloud security posture. Wiz Digital assesses cloud environments against recognised best practices and regulatory expectations, identifying gaps and risks and producing a prioritised remediation backlog to support structured and effective security improvement.

Service Overview

- Assessment of current cloud security posture
- Review against recognised security best practices
- Identification of control and configuration gaps
- Analysis of security risks and potential impacts
- Prioritisation of remediation actions
- Alignment with regulatory and compliance requirements
- Consideration of dependencies and sequencing
- Creation of a clear remediation backlog
- Stakeholder engagement and validation
- Clear security assessment documentation

Service Features

- Clear visibility of cloud security weaknesses
- Reduced risk from misconfigured environments
- Prioritised and actionable remediation actions
- Improved compliance with security requirements
- Better understanding of security risk exposure
- More effective use of security investment
- Reduced likelihood of security incidents
- Improved readiness for audits and assurance
- Stronger governance of security improvements
- Sustainable foundation for cloud security posture improvement
