Setup and Delivery Enablement

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

G-Cloud 15 Service Offerings

- 1 Cloud Strategy, Architecture, and Advisory
- 2 Cloud Programme, Portfolio, and Delivery Governance
- 3 Cloud Migration and Modernisation Planning
- 4 Cloud Foundation and Platform Enablement
- 5 Cloud Migration and Transition Delivery Support
- 6 Data Platforms, Analytics, and Information Management
- 7 Cloud Security, Risk, and Assurance
- 8 Cloud Financial Management and Sustainability
- 9 Managed Cloud Services, and Operational Support
- 10 Quality Assurance, Testing and Service, Validation
- 11 Training, Enablement, and Knowledge Transfer
- 12 AI Platform Enablement, Governance, and Operations

4

Cloud Foundation And Platform Enablement

This category covers the design and implementation of the core cloud platforms on which services depend. Without a strong foundation, organisations often experience inconsistent security, spiralling costs, and operational fragility.

We design and implement cloud foundations that are secure by default, scalable, and aligned to organisational operating models. Platform enablement is automated, policy-driven, and designed to support both central governance and decentralised delivery teams.

Clients gain a stable, reusable platform that accelerates onboarding of workloads, improves security posture, and reduces operational overhead. Foundations are built to evolve, avoiding brittle designs that constrain future change.

DevOps Toolchain Setup And Delivery Enablement

Cloud Foundation and Platform Enablement

This service enables organisations to adopt DevOps practices for cloud delivery by establishing effective toolchains and delivery standards. Wiz Digital sets up tools, pipelines, and practices that support automated, repeatable delivery while aligning with organisational governance and public sector assurance expectations.

Service Overview

- Design and setup of DevOps toolchains
- Configuration of CI/CD pipelines
- Source control and branching strategy definition
- Automated build, test, and deployment enablement
- Integration with infrastructure-as-code practices
- Security and quality checks within pipelines
- Release and environment management practices
- Access and permission configuration
- Clear documentation and guidance
- Team enablement and knowledge transfer

Service Features

- Faster delivery of cloud changes
- Improved reliability of deployments
- Reduced manual deployment errors
- Better control and governance of releases
- Improved collaboration between teams
- Earlier identification of defects
- More predictable delivery cycles
- Improved security and compliance
- Scalable delivery approach
- Sustainable DevOps capability for cloud services
