Service Definition Document : Data Governance

Framework and Operating Model

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

Data Platforms, Analytics, And Information Management

This category addresses the growing need to treat data as a strategic asset rather than a by-product of systems. Common problems include fragmented data platforms, poor data quality, unclear ownership, and limited trust in analytics outputs.

Our approach integrates platform architecture, governance, and analytics enablement. We design modern cloud data platforms alongside clear information management frameworks, ensuring that data is accessible, secure, and fit for purpose.

Clients gain reliable data foundations that support analytics, reporting, and decision-making. This improves insight, reduces manual effort, and enables more confident use of data across the organisation.

Data Governance Framework And Operating Model

Data Platforms, Analytics, and Information Management

This service helps organisations establish effective governance over data in cloud environments. Wiz Digital designs data governance frameworks and operating models that define ownership, accountability, and decision-making, ensuring data is managed consistently, securely, and in line with organisational and public sector requirements.

Service Overview

- Design of data governance frameworks
- Definition of data ownership and stewardship roles
- Governance decision-making and escalation structures
- Development of data policies and standards
- Alignment with regulatory and compliance requirements
- Integration with cloud operating and delivery models
- Definition of governance processes and workflows
- Stakeholder engagement and alignment activities
- Documentation of governance operating models
- Clear guidance for adoption and implementation

Service Features

- Clear ownership and accountability for data
- Improved consistency and control over data usage
- Reduced regulatory and compliance risk
- Increased trust in organisational data
- Better coordination across data producers and consumers
- Scalable governance model for cloud platforms
- Reduced ambiguity in data-related decisions
- Stronger alignment between data and business objectives
- Improved readiness for audits and assurance
- Sustainable governance foundation for cloud data platforms
