

Your Catalyst For The
Next Digital Horizon

Wiz Digital Services Limited

G-Cloud 15

Service Definition Document : Microsoft Fabric
Architecture, Migration and Governance Enablement

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

Data Platforms, Analytics, And Information Management

This category addresses the growing need to treat data as a strategic asset rather than a by-product of systems. Common problems include fragmented data platforms, poor data quality, unclear ownership, and limited trust in analytics outputs.

Our approach integrates platform architecture, governance, and analytics enablement. We design modern cloud data platforms alongside clear information management frameworks, ensuring that data is accessible, secure, and fit for purpose.

Clients gain reliable data foundations that support analytics, reporting, and decision-making. This improves insight, reduces manual effort, and enables more confident use of data across the organisation.

Microsoft Fabric Architecture, Migration And Governance Enablement

Data Platforms, Analytics, and Information Management

This service supports organisations adopting Microsoft Fabric as their cloud analytics platform. Wiz Digital designs target architectures, plans migrations from existing data and BI platforms, and defines governance models that ensure Fabric is implemented securely, consistently, and in alignment with organisational and public sector requirements.

Service Overview

- Design of Microsoft Fabric target architectures
- Planning of Fabric workloads and capacities
- Migration planning from existing analytics platforms
- Lakehouse and warehouse design guidance
- Data ingestion and integration patterns
- Security and access control considerations
- Alignment with data governance and operating models
- Performance and scalability planning
- Assessment of dependencies and migration risks
- Clear Fabric architecture documentation

Service Features

- Clear and governed approach to Fabric adoption
- Reduced risk during analytics platform migration
- Improved alignment with data and analytics strategy
- Scalable and secure analytics foundations
- Reduced delivery and design rework
- Improved performance and reliability planning
- Stronger governance and compliance readiness
- Clear guidance for delivery teams
- Increased confidence in Fabric solutions
- Sustainable foundation for cloud analytics services
