Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

- 9 Managed Cloud Services, and Operational Support
- 10 Quality Assurance, Testing and Service, Validation
- 11 Training, Enablement, and Knowledge Transfer
- 12 AI Platform Enablement, Governance, and Operations

7

Cloud Security, Risk, And Assurance

This category supports organisations operating under heightened security, regulatory, or public accountability requirements. Buyers often need to balance innovation with assurance, without defaulting to risk-averse stagnation.

We embed security and risk management into cloud design and operations, rather than treating them as bolt-ons. Our services cover architecture, controls, assurance activities, and audit readiness, aligned to recognised standards and government expectations.

The outcome is improved security posture, clearer risk ownership, and stronger assurance for stakeholders. Clients are able to move faster with confidence, supported by evidence-based controls and defensible security decisions.

Security Audit Readiness And Evidence Pack Support

Cloud Security, Risk,
and Assurance

This service helps organisations prepare for security audits by assessing readiness and assembling structured evidence packs. Wiz Digital supports the identification, organisation, and validation of security artefacts and technical evidence, enabling organisations to demonstrate compliance confidently and efficiently against audit and assurance requirements.

Service Overview

- Assessment of security audit readiness
- Identification of relevant security standards and controls
- Mapping of controls to required evidence
- Review of security policies and procedures
- Identification and collation of technical evidence
- Gap analysis against audit requirements
- Definition of remediation actions
- Creation of structured audit evidence packs
- Support during audit walkthroughs
- Clear audit readiness documentation

Service Features

- Improved confidence in audit preparedness
- Reduced effort and disruption during audits
- Clear understanding of compliance gaps
- Reduced likelihood of audit findings
- Better organisation of security artefacts
- Improved assurance for stakeholders
- Stronger alignment with security standards
- More predictable audit outcomes
- Improved governance of security evidence
- Sustainable foundation for ongoing audit readiness
