

Your Catalyst For The
Next Digital Horizon

Wiz Digital Services Limited

G-Cloud 15

Service Definition Document : Data Observability and
Pipeline Reliability Support

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

G-Cloud 15 Service Offerings

- 1 Cloud Strategy, Architecture, and Advisory
- 2 Cloud Programme, Portfolio, and Delivery Governance
- 3 Cloud Migration and Modernisation Planning
- 4 Cloud Foundation and Platform Enablement
- 5 Cloud Migration and Transition Delivery Support
- 6 Data Platforms, Analytics, and Information Management
- 7 Cloud Security, Risk, and Assurance
- 8 Cloud Financial Management and Sustainability
- 9 Managed Cloud Services, and Operational Support
- 10 Quality Assurance, Testing and Service, Validation
- 11 Training, Enablement, and Knowledge Transfer
- 12 AI Platform Enablement, Governance, and Operations

Data Platforms, Analytics, And Information Management

This category addresses the growing need to treat data as a strategic asset rather than a by-product of systems. Common problems include fragmented data platforms, poor data quality, unclear ownership, and limited trust in analytics outputs.

Our approach integrates platform architecture, governance, and analytics enablement. We design modern cloud data platforms alongside clear information management frameworks, ensuring that data is accessible, secure, and fit for purpose.

Clients gain reliable data foundations that support analytics, reporting, and decision-making. This improves insight, reduces manual effort, and enables more confident use of data across the organisation.

Data Observability And Pipeline Reliability Support

Data Platforms, Analytics, and Information Management

This service helps organisations improve the reliability and trustworthiness of cloud data platforms. Wiz Digital designs data observability approaches that provide visibility into pipelines, data flows, and dependencies, enabling earlier detection of issues and supporting stable, well-governed analytics and reporting services.

Service Overview

- Definition of data observability strategy and scope
- Design of pipeline monitoring and alerting approaches
- Definition of data freshness and quality indicators
- Lineage and dependency visibility considerations
- Reliability and resilience design for pipelines
- Incident detection and escalation planning
- Integration with monitoring and logging platforms
- Alignment with governance and ownership models
- Validation of operational readiness
- Clear observability documentation and guidance

Service Features

- Improved visibility and transparency of data pipelines
- Faster detection and resolution of data issues
- Improved reliability of analytics and reporting
- Reduced operational disruption from data failures
- Increased confidence in data-driven decisions
- Better operational awareness for data teams
- Reduced downstream impact of data incidents
- Stronger governance and ownership of pipelines
- More predictable data platform operations
- Sustainable foundation for data observability
