Service Definition Document : Infrastructure-as-Code  
Enablement and Standards

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms  
Data, AI, And Cloud Into Secure, Scalable  
Products And Services.  
Delivered At Speed, Engineered For Tomorrow.**

---

# Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

# Cloud Solutions That Drive Innovation

## AI Solutions

Pilot Programs,  
Automation,  
and Analytics/Reporting

## Data Services

Governance, Quality,  
Migrations, MDM, and  
Insights/Reporting

## Cloud Infrastructure

Migration, Modernisation,  
Managed Services, and  
Deployments

## Modernisation

Micro-Services,  
Development, Low Code,  
CRM and Architectures

## Managed Services

Monitoring and  
Maintenance, Application  
Support, and Security

## Advisory

Strategy, Change and  
Process Management,  
and Risk Mitigation

# Delivery That Ignites Transformation

## Custom Pods

**A laser-focused squad, built just for your mission.**

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

## Embedded Teams

**Our experts, fully woven into your culture.**

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

## Managed Services

**We Run & optimise, while you focus on growth**

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

## Project Delivery

**Fixed outcomes against clear milestones.**

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

# G-Cloud 15 Service Offerings

- 1 Cloud Strategy, Architecture, and Advisory
- 2 Cloud Programme, Portfolio, and Delivery Governance
- 3 Cloud Migration and Modernisation Planning
- 4 Cloud Foundation and Platform Enablement
- 5 Cloud Migration and Transition Delivery Support
- 6 Data Platforms, Analytics, and Information Management
- 7 Cloud Security, Risk, and Assurance
- 8 Cloud Financial Management and Sustainability
- 9 Managed Cloud Services, and Operational Support
- 10 Quality Assurance, Testing and Service, Validation
- 11 Training, Enablement, and Knowledge Transfer
- 12 AI Platform Enablement, Governance, and Operations

# 4

## Cloud Foundation And Platform Enablement

This category covers the design and implementation of the core cloud platforms on which services depend. Without a strong foundation, organisations often experience inconsistent security, spiralling costs, and operational fragility.

We design and implement cloud foundations that are secure by default, scalable, and aligned to organisational operating models. Platform enablement is automated, policy-driven, and designed to support both central governance and decentralised delivery teams.

Clients gain a stable, reusable platform that accelerates onboarding of workloads, improves security posture, and reduces operational overhead. Foundations are built to evolve, avoiding brittle designs that constrain future change.

# Infrastructure-As-Code Enablement And Standards

## Cloud Foundation and Platform Enablement

This service helps organisations adopt infrastructure-as-code as a standard approach for cloud environments. Wiz Digital defines patterns, standards, and practices that support consistent and controlled infrastructure deployment, improving reliability, governance, and alignment with organisational and public sector requirements.

### Service Overview

- Definition of infrastructure-as-code approach
- Development of standards and reusable patterns
- Guidance on template and module structures
- Environment and configuration standards
- Security and compliance considerations
- Version control and lifecycle management practices
- Integration with delivery and deployment pipelines
- Validation and quality control mechanisms
- Clear documentation and usage guidance
- Knowledge transfer and enablement support

### Service Features

- Consistent and predictable infrastructure deployment
- Reduced risk of configuration drift
- Improved governance and compliance
- Faster provisioning of cloud environments
- Reduced reliance on manual processes
- Improved reliability and stability
- Easier auditing and assurance
- Better collaboration across delivery teams
- Scalable approach to infrastructure management
- Strong foundation for cloud automation

### Service Benefits

# Engineer Tomorrow, Starting Today

Bring Us Your Biggest Problems;  
We'll Bring The Roadmap.
