Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

G-Cloud 15 Service Offerings

- 1 Cloud Strategy, Architecture, and Advisory
- 2 Cloud Programme, Portfolio, and Delivery Governance
- 3 Cloud Migration and Modernisation Planning
- 4 Cloud Foundation and Platform Enablement
- 5 Cloud Migration and Transition Delivery Support
- 6 Data Platforms, Analytics, and Information Management
- 7 Cloud Security, Risk, and Assurance
- 8 Cloud Financial Management and Sustainability
- 9 Managed Cloud Services, and Operational Support
- 10 Quality Assurance, Testing and Service, Validation
- 11 Training, Enablement, and Knowledge Transfer
- 12 AI Platform Enablement, Governance, and Operations

Cloud Migration And Modernisation Planning

This category supports organisations that need to move to cloud in a controlled, sequenced way, often while maintaining live services and managing technical debt. Common challenges include poor visibility of dependencies, unrealistic timelines, and underestimation of migration risk.

Our planning approach combines technical assessment with business and operational context. We analyse application and infrastructure estates, identify suitable migration patterns, and design phased plans that reflect risk, value, and readiness. Planning explicitly considers data, identity, security, and service continuity.

The result is a credible, prioritised migration plan that reduces uncertainty and supports informed investment decisions. Clients avoid rushed migrations, minimise disruption, and create space for meaningful modernisation rather than simple lift-and-shift.

Application Rationalisation And Decommissioning Planning

Cloud Migration and Modernisation Planning

This service helps organisations reduce application estate complexity as part of cloud adoption. Wiz Digital assesses applications to identify opportunities for rationalisation and decommissioning, supporting informed decisions that reduce cost, risk, and migration effort while aligning with organisational and service objectives.

Service Overview

- Assessment of app usage and business value
- Review of application cost, risk, and technical health
- Identification of duplicate, obsolete, or low-value applications
- Analysis of integration and dependency impacts
- Definition of rationalisation and decommissioning criteria
- Stakeholder workshops to validate decisions
- Assessment of risks and impacts of decommissioning
- Development of a sequenced rationalisation roadmap
- Alignment with broader cloud migration planning
- Clear documentation of rationalisation decisions

Service Features

- Reduced size and complexity of application estates
- Lower operational and maintenance costs
- Reduced scope for cloud migration activities
- Improved clarity on application future-state
- Lower long-term technical and operational risk
- Improved efficiency of cloud programmes
- Better prioritisation of modernisation efforts
- Reduced likelihood of unnecessary migration work
- Stronger alignment between strategy and delivery
- More sustainable application landscape
