

Your Catalyst For The
Next Digital Horizon

Wiz Digital Services Limited

G-Cloud 15

Service Definition Document : Databricks Governance
Enablement (Unity Catalog)

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

Data Platforms, Analytics, And Information Management

This category addresses the growing need to treat data as a strategic asset rather than a by-product of systems. Common problems include fragmented data platforms, poor data quality, unclear ownership, and limited trust in analytics outputs.

Our approach integrates platform architecture, governance, and analytics enablement. We design modern cloud data platforms alongside clear information management frameworks, ensuring that data is accessible, secure, and fit for purpose.

Clients gain reliable data foundations that support analytics, reporting, and decision-making. This improves insight, reduces manual effort, and enables more confident use of data across the organisation.

Databricks Governance Enablement (Unity Catalog)

Data Platforms, Analytics, and Information Management

This service supports organisations governing Databricks platforms through Unity Catalog. Wiz Digital designs governance structures, access controls, and operating models that ensure data assets are managed consistently, securely, and in alignment with organisational governance and public sector assurance requirements.

Service Overview

- Design of Unity Catalog governance architecture
- Definition of data ownership and stewardship models
- Design of access controls and entitlements
- Alignment with data classification and sensitivity standards
- Governance across multiple Databricks workspaces
- Metadata, lineage, and discoverability enablement
- Integration with wider data governance frameworks
- Security and compliance alignment
- Documentation of governance operating models
- Clear Unity Catalog enablement guidance

Service Features

- Improved governance of Databricks data assets
- Clear accountability for data ownership
- Reduced risk of unauthorised access
- Improved trust and discoverability of data
- Stronger compliance with governance requirements
- Consistent controls across environments
- Reduced complexity in data management
- Improved audit and assurance confidence
- Better coordination across data teams
- Sustainable foundation for Databricks platform governance
