and Sustainability Optimisation

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

Cloud Financial Management And Sustainability

This category addresses the financial and environmental challenges of cloud adoption, where variable consumption models can obscure cost drivers and sustainability impact.

Our approach combines financial governance, cost optimisation, and sustainability considerations. We help clients understand unit costs, establish allocation and accountability mechanisms, and embed continuous optimisation practices.

Clients achieve better cost control, improved forecasting, and reduced waste. Cloud spend becomes more transparent and aligned to value delivery, while sustainability objectives are supported through informed platform and usage decisions.

GreenOps Assessment And Sustainability Optimisation

This service helps organisations understand and reduce the environmental impact of cloud services. Wiz Digital assesses sustainability maturity and enables GreenOps practices that align cloud efficiency, cost management, and environmental objectives, supporting public sector sustainability commitments and responsible cloud adoption.

Service Overview

- Assessment of cloud sustainability and GreenOps maturity
- Analysis of energy usage and carbon impact
- Review of workload efficiency and optimisation opportunities
- Alignment with cloud provider sustainability capabilities
- Design of GreenOps operating models
- Definition of governance and accountability structures
- Integration with FinOps and cost management practices
- Definition of sustainability metrics and reporting
- Development of a prioritised sustainability roadmap
- Clear GreenOps enablement documentation

Service Features

- Reduced carbon and environmental footprint of cloud services
- Improved transparency of sustainability performance
- Better alignment with public sector sustainability targets
- More efficient and responsible cloud usage
- Stronger governance of sustainability initiatives
- Better integration of financial and environmental decisions
- Reduced waste and inefficiency
- Improved sustainability reporting and assurance
- Increased confidence in sustainable cloud practices
- Sustainable foundation for GreenOps optimisation
