Controls and Sensitive Data Handling Design

Classification: Public

Lot 3 – Cloud Support Services

**Wiz Digital Is A Digital Firm That Transforms
Data, AI, And Cloud Into Secure, Scalable
Products And Services.
Delivered At Speed, Engineered For Tomorrow.**

Our Mission

We Empower Organisations By Engineering Secure, Scalable Innovation That Unlocks Growth, Sharpens Efficiency And Delivers Lasting Impact.

Cloud Solutions That Drive Innovation

AI Solutions

Pilot Programs,
Automation,
and Analytics/Reporting

Data Services

Governance, Quality,
Migrations, MDM, and
Insights/Reporting

Cloud Infrastructure

Migration, Modernisation,
Managed Services, and
Deployments

Modernisation

Micro-Services,
Development, Low Code,
CRM and Architectures

Managed Services

Monitoring and
Maintenance, Application
Support, and Security

Advisory

Strategy, Change and
Process Management,
and Risk Mitigation

Delivery That Ignites Transformation

Custom Pods

A laser-focused squad, built just for your mission.

- Hand-picked cross-functional talent; Budget surety right from the start
- Flexes in size as scope evolves—no stranded bench

Embedded Teams

Our experts, fully woven into your culture.

- Operate inside your tool-chain & ceremonies
- Knowledge transfer baked in—capability uplift for your staff

Managed Services

We Run & optimise, while you focus on growth

- 24 × 7 monitoring with SLA-backed response
- Continuous improvement pipeline (cost, performance, security)

Project Delivery

Fixed outcomes against clear milestones.

- Scope, timeline, budget locked in upfront
- Dedicated delivery lead + risk registry
- Stage-gate sign-offs ensure zero surprise overruns

Data Platforms, Analytics, And Information Management

This category addresses the growing need to treat data as a strategic asset rather than a by-product of systems. Common problems include fragmented data platforms, poor data quality, unclear ownership, and limited trust in analytics outputs.

Our approach integrates platform architecture, governance, and analytics enablement. We design modern cloud data platforms alongside clear information management frameworks, ensuring that data is accessible, secure, and fit for purpose.

Clients gain reliable data foundations that support analytics, reporting, and decision-making. This improves insight, reduces manual effort, and enables more confident use of data across the organisation.

Data Security, Access Controls And Sensitive Data Handling Design

Data Platforms, Analytics, and Information Management

This service supports organisations in designing secure approaches to managing data in cloud environments. Wiz Digital defines data security architectures, access control models, and sensitive data handling practices that protect information assets while enabling compliant and effective use across cloud platforms.

Service Overview

- Design of cloud data security architectures
- Definition of data classification and sensitivity models
- Access control and entitlement design
- Role-based and attribute-based access patterns
- Encryption and key management considerations
- Secure data segregation and sharing approaches
- Sensitive data handling control definition
- Alignment with regulatory and policy requirements
- Consideration of data security risks and threats
- Clear data security design documentation

Service Features

- Improved protection of sensitive and regulated data
- Reduced risk of unauthorised access or misuse
- Stronger compliance with data protection regulations
- Clear and enforceable access controls
- Increased confidence in cloud data platforms
- Reduced likelihood of data security incidents
- Improved audit and assurance readiness
- Consistent handling of sensitive data
- Better alignment with organisational security policies
- Secure foundation for cloud-based data services
