AgileSource Overview

AgileSource is a professional services consultancy that brings extensive expertise in Business Change, Technology, Digital, and Data delivery to Government and the wider public sector.

At AgileSource, our team brings over 20 years experience in the delivery of Public Sector and Defence projects. We are committed to delivering top-tier services, driven by our passion and dedication to meeting each clients' unique needs.

ENTERPRISE ARCHITECTURE AND TECHNOLOGY STRATEGY SERVICES

Enterprise Architecture and Technology Strategy services that align cloud adoption and digital services with mission outcomes across Government, Defence, and Public Sector organisations. We define target architectures, governance models, and transformation roadmaps that improve service delivery, strengthen resilience, reduce legacy risk, and enable secure, scalable use of Cloud Technology

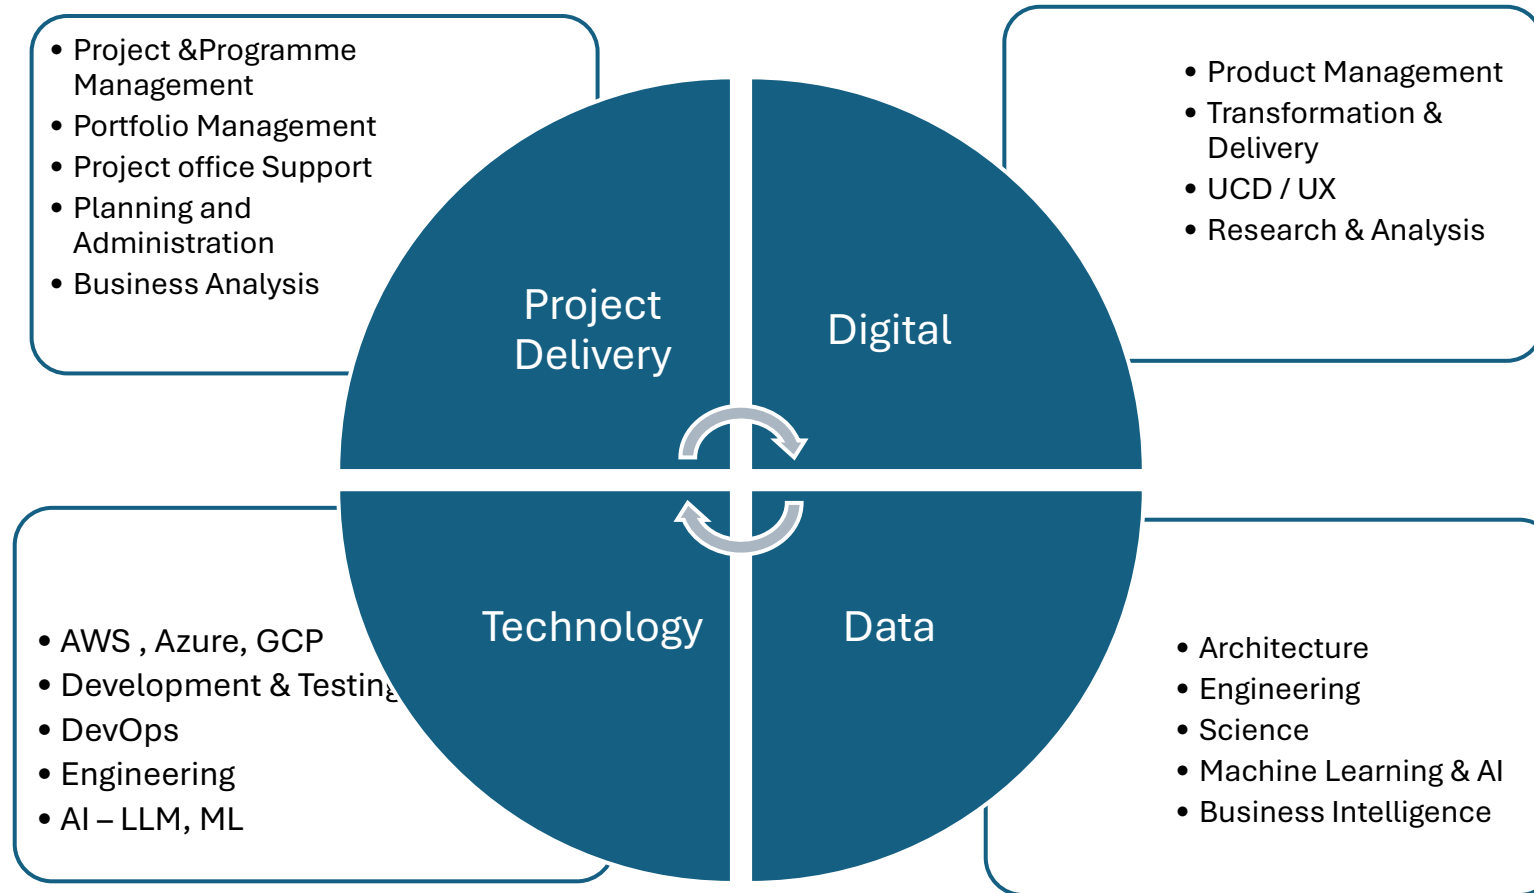

FEATURES

- Enterprise architecture aligned with strategic business objectives and outcomes.
- Grounded in leading frameworks such as TOGAF and Zachman.
- Tailored for government, defence, and wider public sector environments.
- Cloud native and hybrid architecture solutions supporting modern digital platforms.
- Robust governance and compliance frameworks for enterprise wide systems.
- Architecture blueprints and reference models ensuring consistency and reuse.
- Scalability, resilience, and performance optimisation across complex systems.
- Legacy system integration with modern cloud and digital platforms.
- Automation standards incorporating Infrastructure as Code principles.
- Flexible engagement models: Resource Augmentation, SoW outcome based services

BENEFITS

- Rapidly deploy experts to align technology with public sector priorities.
- Reduce complexity with delivery shaped by 20 years' sector experience.
- Accelerate cloud adoption and transformation with specialist, security vetted teams.
- Improve scalability and performance through expert-led architecture optimisation.
- Ensure compliance with government standards using experienced, accredited practitioners.
- Deliver seamless multi cloud integration supported by Agile specialists.
- Enhance agility with flexible on site, remote, or hybrid delivery models.
- Drive innovation through structured, transparent architecture practices and open artefacts.
- Future proof systems using deep domain expertise and modern architectures.
- Robust service governance with clear documentation and transparent management information
