

finuevo suite

Finuevo Suite

A robust and comprehensive suite,
for all banking functions

The Finuevo Suite

The **Finuevo Suite** combines innovative solutions, following international banking standards ahead of market trends to provide unique user experience for digital banking services paired with state-of-the-art core banking functionality.

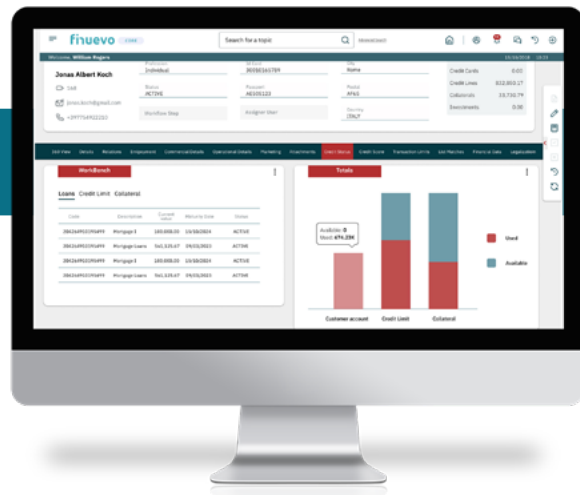

Ideal for both bank officers and the bank's digital clients, the Suite combines advanced technology to perform front-to-back day-to-day banking operations with ease.

Finuevo Suite offers rich functionality for retail and business banks, digital banks & lenders, EMLs, MFIs and Fintechs, integrated with an innovative and efficiently designed digital banking ecosystem enabling bank officers and bank customers to easily process transactions, whilst enjoying a smooth operating environment.

A Complete Banking Solution

Finuevo Core

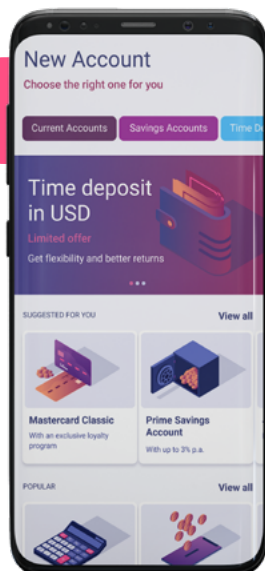

A modern and robust Core Banking platform characterised by flexibility and versatility, powered by a sophisticated layered design over a modern, modular, and open architecture, specifically developed to promote and support frictionless user experience and powerful product factory capabilities.

It can be easily packaged and installed, instantly adjusted to each bank's policies and procedures, empowering banking professionals to perform their operations end to end, whilst the platform seamlessly integrates with treasury, investment and risk management systems thus delivering a holistic experience.

From Accounts and Payments to complete Loans Management, **Finuevo Core** is the ideal platform for end-to-end Banking. The user has 24/7 online access, omni-channel capabilities, and rich functionality that complies with the latest regulations, covering the full spectrum of banking on a single, fully automated banking solution.

It enables financial institutions to provide certain operations also via digital channels to their customers, fully covering web, mobile and e-Branch needs and functionalities.

Finuevo Digital

A mobile-first, cloud-native, Digital Banking platform in-a-box that supports financial institutions of any size to achieve digital modernisation throughout.

Using the latest technologies and best practices, the solution is designed to offer personalised experience to customers and enhance the engagement steadily and efficiently across services, regardless of the back-end systems.

Finuevo Digital offers the freedom to select the functionality needed without affecting the rest of the operations and has ready to use integration layers.

It delivers a unified digital experience across the Web, iOS and Android whilst supporting an intuitive and a user-tailored approach that matches and exceeds today's market standards.

Smart front-to-back banking

Finuevo Suite is a cloud-native, smart banking platform that provides composable banking capabilities, with pre-packaged configurations that guarantee smooth expandability and quick time-to-market.

User Experience

End-users enjoy rich functionality through their mobile devices or web browsers:

- Digital Customer Onboarding with KYC and instant account opening.
- Complete Dashboard.
- View and manage new accounts, cards & products.
- Originate new products including deposits, loans and cards through the integrated product catalogue.
- Straightforward local and international payment initiation.
- Perform utility payments and setup direct debits.
- Support for legal entities with multiple roles & approval schemes.
- Open Banking / PSD2 compliant.
- Support for in-app Campaigns.

Core Banking Power

End-to-end core operations through a complete, powerful, and fully automated engine:

- 360° views of customers and counterparties.
- Extended Product Factory and Billing engine.
- Multicurrency accounts and FX operations.
- STP Payments processing engine supporting any payments network.
- Watch Lists (PEPs & Sanctions).
- Integrated workflow engine, with easy setup across operations.
- Real-time ledger, with instant balance update.
- Rich reporting capabilities.
- Secure and fully audited operations.

A single solution for all business models

1

Retail & SME Banks

Utilise Finuevo Suite's powerful functionality to stay ahead of market trends, ensuring resilience, and smart delivery of products and services, to retain current customers, as well as to attract new generation ones.

2

Digital Banks & Neobanks

They can utilise Finuevo Suite in the cloud or as SaaS due to its open architecture and banking capabilities offering efficient exposure of services to third party applications, and using other services from third party channels, to build financial ecosystems for products and services.

3

Digital Lenders & Fintechs

Finuevo Suite effectively addresses the needs of crowdfunding and marketplace lending platforms, efficiently combining Investment Management with rich Lending functionality.

4

Electronic Money Institutions (EMIs)

They utilise the system, to provide a robust and comprehensive environment for retail and corporate payments, as well as instant account opening.

5

Micro Finance Institutions (MFIs)

Using Finuevo Suite they provide a full micro-credit origination and micro-loans management ecosystem, supporting the communities and contributing to local economies.

Benefits

- Rich & robust cross-channels functionality
- Themeable for more powerful branding
- Complete front-to-back offering
- Highly automated operations
- End-to-end customer journeys for Onboarding and Product Origination

- Flexible delivery and deployment models
- Modular and scalable banking
- User-friendly transaction flows
- Cloud enabled
- Cost-effective operations, resulting in low TCO and quick ROI

Proven user experience for all

Going beyond the standard digital banking features, **Finuevo Suite** offers one of a kind features to personalise the offered solutions and services, helping the bank grow easily as the market changes.

Its mobile-first concept offers a convenient omnichannel experience across devices, according to specific segment requirements.

Fast time to market

Finuevo Suite boosts new functionality and products to be marketed quickly, deploying efficient configurations with no development efforts, minimising costs and saving unnecessary personnel involvement.

Leading technologies

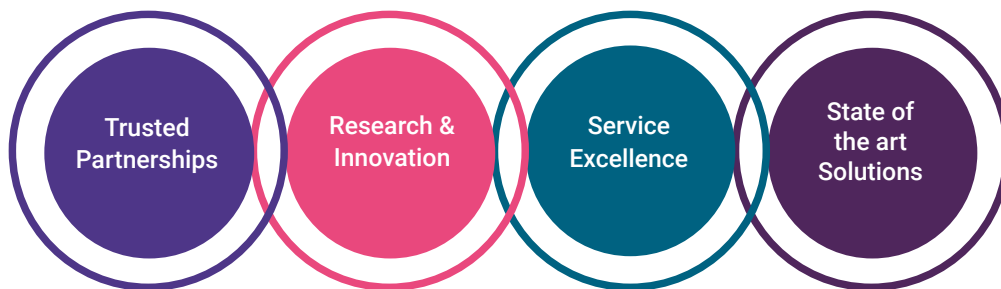

Finuevo Suite uses a combination of state-of-the-art technologies, open architecture, and innovative design, capitalising on Profile's experience from a wide range of reference projects in the banking & finance sectors worldwide.
