PCI DSS QSA Pricing

Pricing Summary

RedSecLabs provides transparent, scalable pricing designed to support organisations of varying sizes and PCI compliance maturity. Our services are delivered remotely by experienced QSAs and PCI advisory specialists, ensuring exceptional value without compromising on quality.

We offer standalone engagements and flexible subscription models covering:

- Scoping and readiness assessments
- PCI DSS gap analysis and remediation planning
- Annual QSA compliance validation
- Assisted SAQ preparation and submission
- Automated ASV scanning aligned with PCI requirements

Investment levels vary based on the number of in-scope systems, cardholder data environments (CDEs), and support requirements. Engagements may be combined within a remediation programme or long-term compliance partnership.

PCI DSS Pricing Packages

All purchased service units are dedicated to PCI-DSS engagements and can be applied across assessment, documentation validation, testing activities and compliance closure tasks as required.

Service Line	Indicative No. of Days / Scope	Average Total Cost (GBP)
Scoping Validation	3 – 5 days	£3,315 – £5,525
Gap Analysis	5 – 10 days	£5,525 – £11,050
Annual QSA Assessments	5 – 40 days	£15,000 – £44,200
Assisted SAQs	4 – 20 days	£3,000 – £15,000+
