

Managed Cybersecurity Services

CCL Protect is a managed cybersecurity service delivering proactive risk identification, monitoring, and improvement. It combines phishing assessments, vulnerability scanning, cyber awareness training, dark web monitoring, and regular reviews to strengthen organisational cyber resilience through a scalable, subscription-based model.

Features

1. Phishing simulations: Build resilience, assess staff readiness, reduce attack success.
2. Vulnerability scanning with expert analysis to prioritise remediation actions.
3. Cyber awareness training to reinforce secure behaviours.
4. Dark web monitoring: Identify exposed credentials, enable rapid response.
5. Progress reviews to track improvements and refine security roadmap.

Benefits

1. Clear understanding of organisational cyber risk and security maturity.
2. Actionable roadmap supporting continuous cybersecurity improvement.
3. Increased confidence in baseline technical and human security controls.
4. Holistic protection covering people, processes, and technology risks.
5. Predictable monthly subscription pricing with scalable service options.

CCL Solutions Group is one of Europe's leading digital forensics, discovery and disclosure, and cyber security specialists.

Our range of services have been specially designed to help clients tackle their particular challenges efficiently and effectively. They provide a reliable, robust solution every time, with complete price certainty from the outset.
