Deceased Online – Pricing and Subscription Information
Pay-Per-View Pricing

Deceased Online (DOL) offers a pay-per-view pricing model for accessing records, images, and related information. Prices are outlined below.

Information	Price (£)
Burial register scan*	2.50
Cremation register scan*	2.50
Transcribed burial register entry*	2.50
Transcribed cremation register entry*	2.50
Grave details and other interments	1.50
Image of a grave memorial**	2.50
Maps showing a grave or memorial location	Individually priced
Collection of cemetery memorial images	Individually priced according to size
Sub-collection of memorial image(s)***	2.00

* If both a register page scan and a transcribed register entry appear for a burial or a cremation, the customer will only be charged once for viewing both.
** This is for an image of an identified grave found using the register-based search method.
*** This is for one or more grave memorial images and inscription transcript(s) in a cemetery sub-collection of memorial inscriptions which include the required surname.

Monthly Subscription Offer

Deceased Online also offers a monthly subscription option for customers who require regular access to burial and cremation records.

The monthly subscription costs £9.99 and includes 15 views of standard burial and cremation records. This is a rolling subscription, with payment taken on the same day of the month that the customer initially signs up. The subscription will continue until the customer chooses to cancel.

Any unused views within a month are rolled over. Customers can accrue up to a maximum of 180 unused views. Once this limit is reached, the oldest unused views will expire as new views are added.

Maps and images of headstones are not included within the monthly subscription. These items must be purchased separately using a pay-per-view voucher.

Payments for both pay-per-view purchases and subscriptions are processed securely through the payment provider Stripe. Deceased Online does not store or have access to customers' credit or debit card information.
