

Introduction

This document covers pricing for Stonesthro lots 1, 2 & 3 services.

Appendix 1 contains list prices from our supply partner Zadara which are subject to discount as laid out in this document for lot 1 and where applicable for lot2.

Appendix 1 contains list price components, for Gcloud our maximum price component is discounted by 10% of the rates below when used in lot2 and where prices are not stated in appendix 2 this list price in appendix 1 subject to 10% discount is applicable.

Further discounts are available for:

- Term of contract
- Ease of migration
- Workload intensity
- Time of day operation (ie discount for operating at quiet times)

Further costs will be levied for:

- Dedicated processor
- Onsite cloud
- Increased processor intensity (sharing ratio)

This is in addition to stated caveats in the Gcloud 15 framework submission

Appendix 2 contains pricing for Lot2 Kubernetes service.

Appendix 3 contains SFIA rate card for any professional service consumed across service deployments
