68. Security, data residency, and compliance implications on price

All servers will be stored on UK-only data residency data centres, unless requested otherwise by the customer.

9. Dependencies, assumptions & constraints

List key commercial assumptions (e.g., minimum user counts, fair use thresholds, buyer responsibilities).

State any 3rd-party fees (if any) and how they are passed through.

10. Indexation & price changes

Prices are for 2026 and subject to CPI at the start of each calendar year.

11. Terms: billing, invoicing & payment

Purchase Order once received will then be invoiced and payment requested in 30 days.

12. Fair usage & service limitations

Fair usage will be based on usage of 100GB per month. Additional cost 10% charge for each
