

HAMDEN TECHNOLOGY LTD

PRICING DOCUMENT – CLOUD SUPPORT SERVICES (G-Cloud 15)

Version 1.2 – November 2025

1. Introduction

This Pricing Document sets out all unit prices, day rates, optional services and volume discounts for Cloud Support Services supplied by **Hamden Technology Ltd** under the G-Cloud 15 Framework (Lot 3: Cloud Support).

All prices are fixed, transparent and compliant with G-Cloud pricing rules.
No prices are listed as “POA”, “from £X”, or as ranges.

2. Day Rates

Cloud Architect

£1,000 per day

Senior Cloud Developer / Senior Engineer

£750 per day

DevOps Engineer

£850 per day

Quality Assurance / Tester

£500 per day

Cloud Support Engineer (L2/L3)

£350 per day

Project Manager / Delivery Lead

£650 per day

3. Optional Training Services

These training sessions help Buyer teams operate cloud systems effectively.

Cloud Training Session (Half Day)

£450 per session

Cloud Training Session (Full Day)

£800 per session

4. Data Extraction & Exit Pricing

Required for buyers wishing to offboard or export data.

Small Data Extract

(e.g., small database, simple file library)

£150

Medium Data Extract

(e.g., multiple systems, structured data)

£350

Large Data Extract

(e.g., platform-wide, multiple integrated systems)

£750

All data is supplied in standard formats (SQL/CSV/JSON).

5. Volume Discounts (Optional)

Discounts are applied automatically based on the number of days purchased under the Call-Off Contract.

- **5% discount** for commitments of **50+ days**
- **10% discount** for commitments of **120+ days**

6. Expenses

All work is delivered remotely unless otherwise agreed.

If on-site work is required, travel and subsistence may be chargeable at **cost only** and agreed in advance.

7. Minimum Commitment

There is **no minimum purchase** under G-Cloud.

Buyers may purchase as little as **one day** of any role.

8. Invoicing & Payment Terms

- Invoiced monthly in arrears
- Payment terms: **30 days** (as per UK public-sector standard)
- All prices exclude VAT
