BLUEHORIZON SAAS - Annual Contract

BLUEHORIZON is a generative AI powered tool that allows automated analysis and deterministic categorisation from optical feeds such as WebCams, IP Camera, CCTV, Drones or any other RTSP/HLS feed to track targets across different systems without needing direct integration.

Can also be used to augment existing CCTV imagery to provide OCR based ANPR, Facial Recognition and defensive Counter-Surveillance tools.

Comes as either a standalone Field Tool or as a Lake, both components can be operated independently or in collaboration as a complete system to feed key selectors directly into BLUEFUSION.

Description	Quantity	Unit Price	VAT	Amount GBP
Software Licence - BLUEHORIZON IOT Field Tool that allows automated analysis and deterministic categorisation from optical feeds such as WebCams, IP Camera, CCTV, Drones or any other RTSP/HLS feed to track targets across different systems without needing direct integration.	1.00	120,000.00	20%	120,000.00
Annual Licence fee, including Hardware CAPEX				
Software Licence - BLUEHORIZON Lake	1.00	1,750,000.00	20%	1,750,000.00
Cloud based HORIZON software to provide fast and actionable intelligence from agostic optical feeds, regardless of point of origin or type, automating the analysis of video feeds and instantly matching images, with the operator query, enabling white listing of friendly forces and targeted counter-surveillance automation without risking exposure or requiring additional camera deployments.				
Annual Licence fee				
Subtotal				1,870,000.00
TOTAL VAT 20%				374,000.00

TOTAL GBP	2,244,000.00
-----------	--------------

Terms

Pricing is valid until 31 Dec 2027.

Invoices are issued in advance and each annual licence cohort and any applicable service fees are payable prior to delivery.

Delivery also subject to EULA completion where applicable.
