OSINT SAAS Platform - Annual Contract

Standalone, battle tested, OSINT SaaS platform covering the Deep, Dark, Breach and PII, including provision of data from non-traditional news feeds.

Uncover intelligence or gain an atmospheric snapshot of trending topics gathering attention worldwide and the associated sentiment in response and inclusive of a case management system.

Predict Cyber Threats with accurate associated timelines to get advance warning of technical vulnerabilities and risk before they materialise and take effect.

The coverage is broad and dynamic and the collection is continuous with new categories and sources being added regularly and pricing designed to be fixed cost whilst offering completely unlimited use.

Licence can be for an entire platform complete, alongside API integration support if required, or as a simple single user software licence, accessed via a normal web browser.
