

Fluency Align Pricing – G-Cloud15

How to Use This Document

1. Identify Target Specialties & Users

- Determine number of clinicians where ambient documentation (AVT) is appropriate.

2. Review Annual Pricing

- Base price per user per year is listed

3. Evaluate Optional Modules

- Smartphone app (included)

4. Plan Professional Services

- Ambient deployments typically include workflow design, training, and integration. This will be scoped by Solventum based on project size and complexity. See Fluency Align service definition document for more details.
