

Medicode Cloud Pricing – G-Cloud15

How to Use This Document

• 1. Determine Annual Discharge Volume

- Medicode Cloud is priced **per discharge episode** at **£0.70 per episode**.
- Identify your yearly discharge numbers to estimate your SaaS cost.

2. Review Professional Services Requirements

- **Solventum will assess professional service days based on project size and complexity.**

3. Assess Optional Outsourced Coding Packages

If you require Solventum-provided clinical coders:

- **Outsourced Clinical Coding:** £4,000 per month (per full-time coder).

4. Maintenance & Support

- **Annual Maintenance & Support:** £0
Included within the per-episode fee.

5. Consider Optional Software Modules (MHA/DQA/Autonomous Coding – see service definition document for details)

You can enhance your coding workflow with optional modules as below.

Review which modules align with your performance, automation, and data quality goals.
