General

This Pricing Document provides generic pricing information for the service offerings included within G-Cloud 15. Digital Marketplace Buyers must confirm individual service pricing and availability from their Presidio Account Manager or from Presidio's general point of contact at procurementuk@presidio.com. Buyers should read this pricing document in conjunction with the specific service description, terms and conditions and SLA for the service, or services, required.

Pricing Assumptions

- Pricing is based on a 12-month term
- Pricing is subject to change based on Presidio's rates
- Professional services are required for implementation

Professional Services

Any elements of professional services required for this solution will be at the rates shown in the published rate card.

Other Pricing Considerations

- Pricing excludes VAT.
- Public Cloud charges, where shown, are estimates only; actual charges will be based upon actual consumption in any given period. Where pricing is presented in USD, the final amount payable in GBPO will be calculated based on the exchange rate in effect on the date the order is processed.
- Charges are based on usage information provided and assumptions made on that basis, all which forms part of the contractual agreement. Prolonged and significant variation in usage may require a reassessment of the charges.
- Any costs, pricing or charges for implementation services shall be calculated in accordance with Presidio's standard daily rate in whole days only.
- Presidio shall be entitled to charge its higher standard daily rate (typically double) where the services are carried out either partly or in whole outside of normal business hours.
- Support services may be delivered for an additional fee, subject to the terms of the agreed support model.
