

Pricing Document for G-Cloud 15 Services

Supplier: DataMC UK Limited - t/a DataMC

Service: Data Migration Services - Platform Agnostic

Version: 1.0

30 January 2026

1. Overview

This Pricing Document forms part of the Data MC UK Limited ("Supplier") G-Cloud 15 service listing and should be read in conjunction with the Service Definition Document (SDD) and Terms and Conditions (T&Cs).

All prices are **exclusive of VAT** and apply to engagements delivered under a G-Cloud 15 Call-Off Contract.

2. Rate Card

Role / Service Element	Unit of Measure	Rate (£ ex VAT)	Description of Deliverable / Service Scope
Project Manager (PM)	Per day (8 hours)	£ 950	Overall project governance, stakeholder liaison, risk & issue management, reporting, and delivery assurance.
Technical Lead (TL)	Per day (8 hours)	£ 900	Technical oversight, data migration design, mapping validation, and environment management.
Data Migration Developer (Dev)	Per day (8 hours)	£ 800	Development and execution of DM REVOLVE ETL scripts, testing, reconciliation, and error resolution.
DM REVOLVE Toolset charge	Per month (per project instance)	£ 1500	DM REVOLVE project environment (Azure UK), provided as part of the migration service, including automated audit logs, profiling tools, reporting dashboards, and user support.

3. Optional / Supplementary Charges

Item	Basis	Rate (£ ex VAT)	Notes
Travel & Subsistence	At cost	–	Charged only where on-site attendance is required and agreed in advance.

4. Expenses and Billing

- All work is charged Time & Materials unless a fixed-price SOW is agreed.
- Invoicing is monthly in arrears or per milestone, payable within 21 days.
- Rates cover all contracted hours.
- Public-holiday or weekend work requires prior written approval and is billed at standard rate.
- Travel & subsistence are billed at cost, supported by receipts and compliant with HMRC guidelines.

5. Annual Price Review

Rates remain fixed for the first 12 months of a Call-Off Contract. Thereafter, adjustments may be made annually in line with the UK CPI index, subject to mutual agreement and the G-Cloud Framework rules.

6. Assumptions

- All prices assume remote delivery unless otherwise agreed.
- Client to provide system access and test environments.
- DataMC to provide required tooling, governance templates, and documentation.
