

Subscription - Licensing SKUs

Overview

Subscription Licensing simplified SKU management by making them hardware agnostic. As a result, new SKUs have been introduced to accommodate this solution.

Product Class to SKU Mapping

The table below serves as a reference to easily identify the mapping between the product classes and the corresponding SKUs. These licensing SKUs are options within the following subscriptions:

- Meraki Subscription SKU: MERAKI-SUB
- Cisco Networking Subscription: CISCO-NETWORK-SUB
- Partner Branded Subscription: CISCO-NETWORK-PSUB

*Only available in Cisco Networking and Partner Branded Subscriptions.
