

Cyber Accelerator Programme

A service helping public sector organisations accelerate cyber resilience through strategy, planning, policy, standards, and procedures - combined with targeted implementation or reconfiguration of high-impact technologies to maximise risk reduction and operational value. Designed to align with your mission while strengthening security posture and achieving alignment with evolving Cyber Assessment Framework profiles, at pace. Suitable for organisations with hybrid cloud environments.

Our Approach

1. Understand

Gather initial information to understand your organisation's current posture, culture and wider digital transformation plans. Set strategic objectives, review current and new investments and resources.

2. Prioritise

Detailed analysis of key systems, policies, and vulnerabilities to identify and prioritise a security programme over 1,3 or 5 years. Agree specific objectives and measures to track success and what good looks like.

3. Enact

Configure technologies, build policies, and procedures. Focus on high return controls and operational improvement: Governance, Identity & Access Management, Network Security, Threat & Vulnerability Management, Incident Management.

4. Sustain

Align organisational, digital, and cyber objectives for the long term. Office of the CISO with regular testing and assessments over 1,3 or 5 years to augment SecOps and Governance teams. Support packages tailored around specific context and need.

What We Need From You

- Access to key stakeholders for interviews, workshops and technical projects (e.g., IT leadership, business unit heads, legal/compliance officers).
- Relevant documentation, including existing cyber security strategy, policies, IT architecture diagrams, risk assessments, and compliance reports.
- Information on current and planned digital and cyber transformation initiatives and investments.
- Details on your organisational business objectives, critical services and disaster recovery plans.

Service Objectives

- Rapidly assess, reduce and control the risk of cyber security incidents and data breaches
- Measure and demonstrate the success and benefits of your cyber security programme for operational and leadership teams
- Increase efficiency and effectiveness of security investments and digital transformation success
- Meet compliance mandates and rapidly adapt to new and evolving threats

Service Options

Service Options

Fixed outcomes and deliverables for each of 4 phases (Asses, Prioritise, Enact, Sustain).
Delivered as a complete programme or in isolation, adapted around existing strategy and plans.

Scaled up for or organisations with up to 500 staff (small), between 501 and 5,000 staff (medium) and between 5,001 and 30,000 staff (large).

Engagements can focus on single high impact security domain, greatly improving posture in a specific are, or scaled out across all domains for significant breadth and depth of security and resilience.

High Impact Security Domains

Governance: Strategy, Objectives, Security Architecture Principles, Policies, Procedures and Standards.

Identity & Access Management: Implement MFA, Reconfigure AD and Entra to Principle of Least Privilege, Protect High Privilege.

Network Security: Reconfigure hybrid cloud networks to segregate services.

Threat & Vulnerability: Track assets across hybrid clouds and implement an effective vulnerability management regime.

Response & Recovery: Plan and practice for incident scenarios across clouds.

Benefits to your organisation

Risk Reducing

Clear strategy to target greatest risks and harms to reduce impact and likelihood of attacks.

Cash Releasing

No wasted investment, focused activity ensures optimal use of resources and automated processes.

AI Enabling

Cyber improvement leads to better visibility and efficiency, more secure and trusted AI adoption.

- SME with highly experienced subject matter experts.
- Security clearance to BPSS, NPPV3 and SC.
- Specialists in delivery of end-to-end resilience.
- Wide-scale cyber programmes for UK Government.
- Public Sector first and mission-driven.
