

Pricing Document – G-Cloud 15 Consultancy Services

This pricing document sets out standard pricing for consultancy services supplied under the G-Cloud 15 Framework. Pricing is provided on both individual day-rate and blended-rate models. All pricing is exclusive of VAT. Final pricing is agreed at call-off based on scope, duration, and delivery approach.

Individual Role Day Rates

Role / Capability	Unit	Price
Senior Digital Consultant / Programme Assurance	Per day	£1,000
Digital Systems Consultant	Per day	£850
Project Management (Digital / Transformation)	Per day	£900
Business Analysis (Process, Requirements, Readiness)	Per day	£900
Go-Live and Deployment Consultancy	Per day	£950
Change and Adoption Consultancy	Per day	£900
Technical Advisory and Integration Oversight	Per day	£1,000

Blended Day Rates

Blended rates provide a single day rate covering a mix of consultancy activity across digital consultancy, project management, and business analysis. This approach supports flexible use of consultancy time and simpler commercial arrangements.

Blended Service Model	Included Capabilities	Day Rate
Standard Blended Consultancy	Digital consultancy, business analysis, change and adoption support	£900
Delivery Blended Consultancy	Digital consultancy, project management, business analysis, and go-live support	£950
Senior / Programme-Critical Blended Consultancy	Senior consultancy, programme assurance, project management, and technical advisory	£1,000

Expenses

Travel and subsistence expenses are not included in the day rates unless explicitly stated. Where required, reasonable expenses will be charged at cost and agreed in advance with the Customer. No expenses will be incurred without prior approval. Remote delivery is supported

where appropriate to minimise travel and associated costs.

Pricing Notes

- A standard working day is up to 7.5 hours. - Part-day rates may be agreed at call-off. - No minimum contract term applies. - Discounts may be available for longer engagements. - This service is consultancy-only and does not include managed services, hosting, or system operation.
