

Pricing Document – Digital Maturity Assessment and Advisory Service

This pricing document sets out standard pricing for the Digital Maturity Assessment and Advisory Service supplied under the G-Cloud 15 Framework. Pricing is provided on a day-rate and blended-rate basis. All pricing is exclusive of VAT. Final pricing is agreed at call-off based on scope, organisational size, and assessment complexity.

Individual Consultancy Day Rates

Role / Capability	Unit	Price
Senior Digital Consultant / Transformation Assurance	Per day	£1,000
Digital Maturity Consultant	Per day	£900
Digital Project Management	Per day	£900
Business Analysis (Digital Processes and Requirements)	Per day	£900
Change and Adoption Consultancy	Per day	£900

Blended Day Rates

Blended rates provide a single day rate covering a mix of digital maturity assessment, business analysis, project management, and change and adoption advisory. This model supports simpler commercial arrangements and flexible use of consultancy time.

Blended Service Model	Included Capabilities	Day Rate
Standard Digital Maturity Assessment	Digital maturity assessment, process review, documentation review, reporting	£900
Enhanced Digital Maturity Assessment	Assessment, stakeholder workshops, change analysis, improvement roadmap	£950
Senior / Programme-Critical Digital Advisory	Senior advisory, assurance, executive reporting, programme-level oversight	£1,000

Expenses

Travel and subsistence expenses are not included in the day rates unless explicitly stated. Where required, reasonable expenses will be charged at cost and agreed in advance with the Customer. Remote delivery is supported where appropriate to minimise travel and associated costs.

Pricing Notes

- A standard working day is up to 7.5 hours. - Part-day rates may be agreed at call-off. - No minimum contract term applies. - Discounts may be available for multi-day engagements. - This service is consultancy-only and does not include implementation or managed services.
