DELTA CYBER SECURITY PRICING GUIDE

Below are estimated costs for our services, inclusive of both testing and reporting. Prices are quoted as a general guide and can vary based on the specific requirements of each client. Delta can conduct a scoping session in order to provide a precise quotation prior to the start of any engagement.

SERVICE	COST	NOTES
Cloud Security Review	from £2,700	Costs vary based on testing scope and number of tenants
Gap Analysis	POA	Costs vary based on required industry standard
Penetration Test - API	from £2,700	Assuming client has prepared postman files, or we can quote to create them if required
Penetration Test - External	from £1,800	Based on testing up to 16 IPs
Penetration Test - Internal	from £2,700	Based on testing up to 200 IPs
Penetration Test - Web App	from £2,700	We recommend testing is conducted in a UAT/Dev site
Penetration Test - Wireless	from £1,800	Typical testing starts from 1 day on-site and 1 day reporting
Phishing Campaigns	from £1,800	Based on standard template, costs can vary based on testing requirements

Cyber Essentials	£320	£440	£500	£600
Cyber Essentials & Cyber Essentials Plus	£1,420	£1,540	£1,600	£1,700

Optional Services	Cost
Partially Guided Support (90 minutes consultancy)	£195
Fully Guided Support (Unlimited consultancy)	£450

All costs are exclusive of VAT.

Why choose Guided Support for Cyber Essentials?

Struggling with the Cyber Essentials self-assessment questionnaire (SAQ)? Our Guided service provides you with expert support —saving time, reducing stress, and increasing your chances of passing.

This service is perfect for organisations without in-house IT expertise, helping you answer complex technical questions. It includes:

- ✓ A dedicated session with a qualified assessor.
- ✓ Guidance with answering any technical questions.
- ✓ Help to refine responses into the correct industry language, minimising resubmissions and saving time.
- ✓ Support with identifying and understanding any security changes that you are required to implement.

To maximise the session, you should complete as many questions as possible beforehand, allowing our assessor to focus on what you need to pass the certification.

You can review the Self-Assessment Questionnaire in advance to decide if Guided Support is right for you: Cyber Essentials (Willow) Question Set Link: https://iasme.co.uk/cyber-essentials/free-download-of-self-assessment-questions/

GET STARTED

Start the process by contacting us today on **01243 266077** or via email: **info@deltacybersecurity.co.uk**

CYBER ESSENTIALS PLUS
NEXT STEPS & HOW WE WORK

At Delta we value your time. Our audit process has been designed to minimise business impact and improve pass rates. The diagram below outlines the steps to certification.

1 ACCEPTANCE & SETUP

- Please contact us via **this link**, or give us a call today on 01243 266077, or email info@deltacybersecurity.co.uk
- We will provide a full written proposal, for you to complete with your setup information
- Your invoice will be emailed and IASME portal login credentials will be sent to you (via email/SMS) within 24 hours of payment

2 CYBER ESSENTIALS QUESTIONNAIRE

- Login to portal.iasme.co.uk with your email address and secure password (received via SMS)
- Complete all of the questions and submit for scoring

OPTIONAL

We can offer Guided services, if you would like help completing the questionnaire

3 SCORING & FEEDBACK

- Our assessor will mark your questionnaire and issue your Cyber Essentials certificate, upon a successful submission
- There are **no hidden fees** if you need multiple submissions and we aim for **24hr scoring** (exc. weekends/public holidays)

REMEDIATION

We provide feedback on any fail points, so you fully understand the changes needed to pass the certification

4 PRE-ASSESSMENT

- We offer clear audit guides/demo videos to help you prepare
- Our assessors are available for pre-assessment guidance calls
- We provide early access (up to 7 days max.) to vulnerability scanning tools, enabling faster remediation, setting you up for success

5 CYBER ESSENTIALS PLUS ASSESSMENT

- You book a 2 hour slot at your convenience for the assessment (duration can reduce to as little as 15 mins if Step 4 is followed)
- Our assessor will review all evidence and vulnerability scans

REMEDIATION

We provide feedback on any remediations, so you fully understand any changes needed to pass the certification

6 CERTIFICATION

- Your certificate and report are sent via e-mail (within 24 hours)
- We offer feedback and can support you in using the results of the assessment to build or improve your security roadmap

DELTA
CYBER SECURITY

WHY DELTA?

DELTA
CYBER SECURITY

BACKGROUND

- 30 years of Cyber Security industry experience
- Commercial team with over 40 years of B2B expertise
