Introducing Logikcull AWS

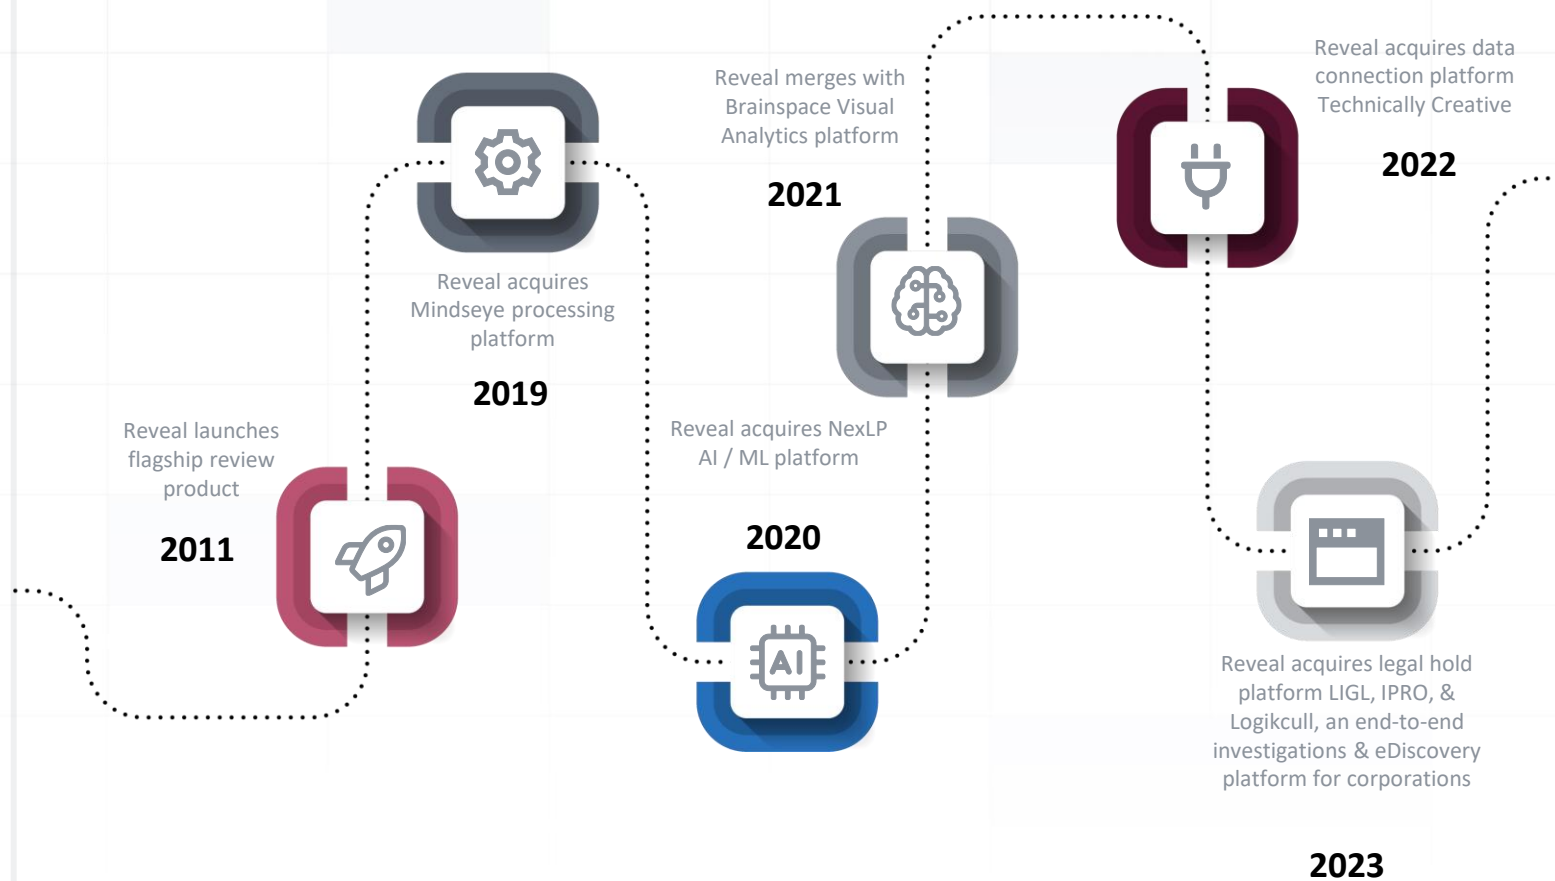

Empowering Professionals with Choice

Company Overview

With best-in-class AI solutions from innovative reusable AI models to ground-breaking generative AI and so much more, Reveal delivers the industry's most advanced and comprehensive set of AI-powered capabilities. Tap into the unprecedented power of Reveal's AI to achieve your goals better, faster, and cheaper.

Acquisition Timeline

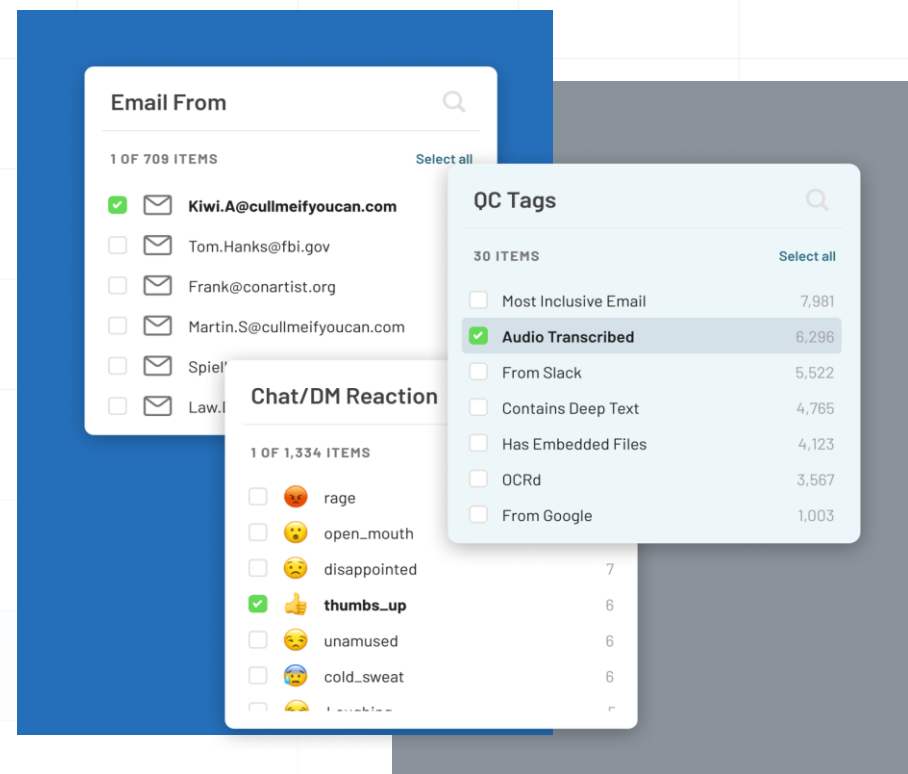

Logikcull

For small matters, use Logikcull, an easy-to-use lightweight investigations & eDiscovery solution designed to quickly process, cull, review, & produce documents.

Logikcull Culling Intelligence

See ALL the Evidence

- **Drag-n-Drop eDiscovery: Any Size, Any File**
Collect & index data from Slack, Teams, Google, O365, & Box
- **Search Dark Data with Deep Text Recognition**
Automatically dedupe, OCR, render to PDF, transcribe with VoiceTouch TM, extract hidden files, and more
- **Cull Your Data using 30+ smart filters**
Review, tag, comment, redact, annotate, and more at lightning speed (100x faster than Relativity).

Our Culling Intelligence engine makes searching for evidence easier than finding a pair of shoes on Amazon.

Logikcull Benefits

Logikcull will help you **cull the noise** and...

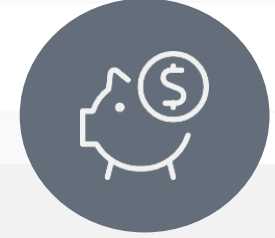

Increase Your **Defensibility**

- Drag-n-drop discovery
- Auto-organize data
- Illuminate dark data

Strengthen Your **Data Security**

- Encrypt everything
- Control access
- Securely share data

Lower Your **Time & Costs**

- Reduce days to minutes
- Invite unlimited users
- Budget accurately

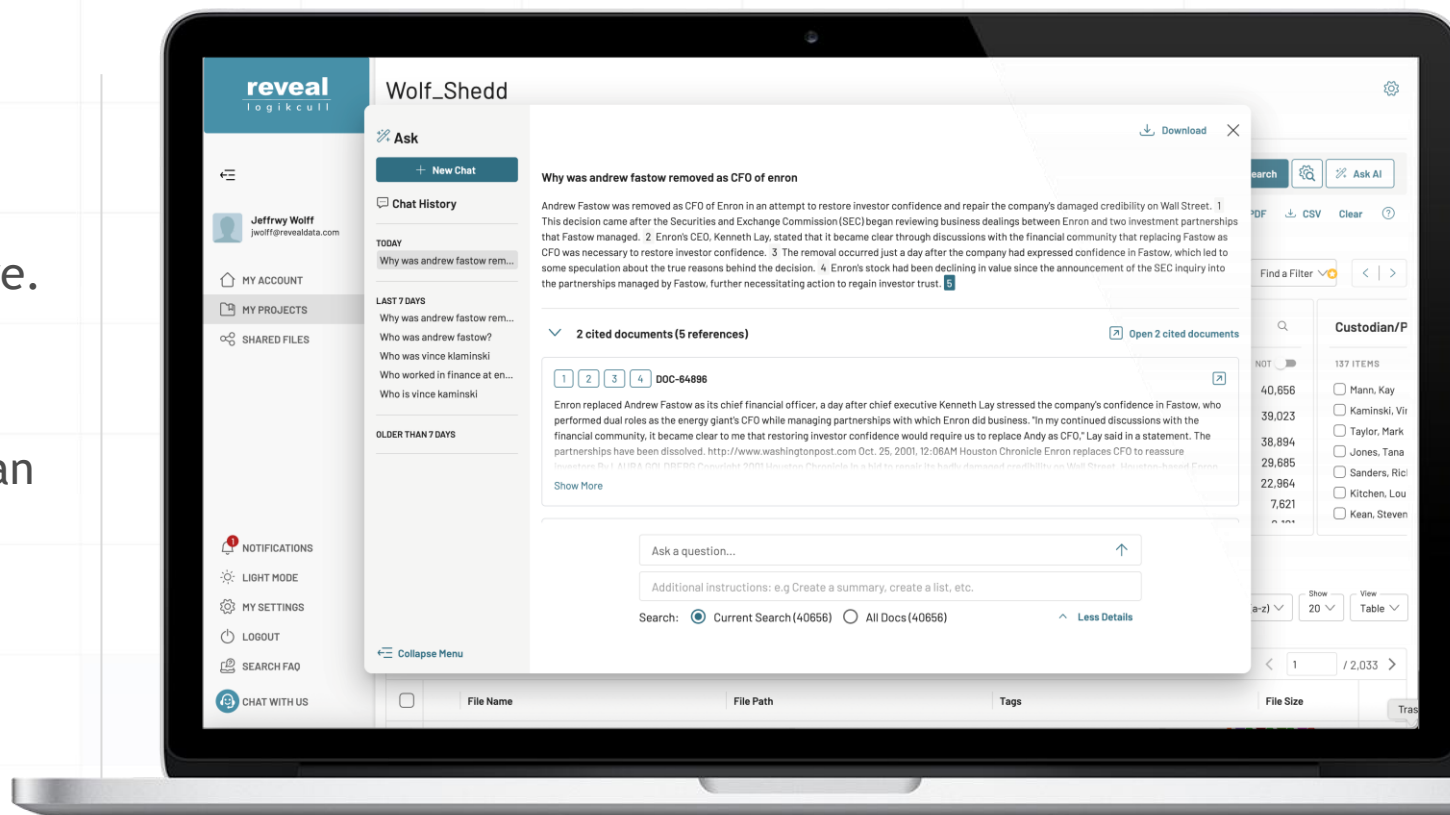

Need Key Facts in Seconds? Just ASK

ASK in Logikcull

Reveal's natural language search engine fast-tracks your understanding of narrative, key players, important events, timelines and more.

With ASK, you can:

- Get to the heart of a matter fast so you can begin developing a theory of the case
- Quickly understand crucial case elements
- Unleash the power of enhanced semantic search with everyday language
- Sum up critical findings - or dig deeper into individual issues

ASK requires no search or prompt expertise, and is powered by the same sophisticated LLMs that drive Claude.ai
