

NU FORM

Pricing Document – ref: G-Cloud 15

NU XFORM

1. Overview

Nu Xform is a leading SMaRT building and security consultancy, dedicated to empowering organisations to define intelligent building technology for new developments and existing estates.

2. Service Pricing

The pricing of our consultancy services is based on a combination of time required and our day rates.

All prices are in GBP (£) and are exclusive of VAT.

3. Pricing Model

Consultancy services are charged using a **fixed day rate**. Effort will be estimated in days, with the total price calculated by multiplying the estimated effort by the applicable rate.

- **1 day = 8 hours**
- Pricing is based solely on time required to deliver the service
- While the standard model uses a fixed day rate, Higher Education customers will be eligible for a sector-specific reduction in the final calculated effort.

Nuxform Limited – Registered in England No 13903522 – Registered Office: 5 Robin Hood Lane, Sutton, Surrey SM1 2SW

NU XFORM

4.1 Education Sector Pricing: A minimum 5% discount is available on all **max day rate ex VAT (GBP) prices** in the above table for customers within the Education Sector.

5. Expenses

- Expenses are not included in the unit price.
- Travel and subsistence may be charged where agreed in advance.
- Any expenses will be charged at cost and in accordance with public sector travel and expense policies. No expenses will be incurred without prior written approval from the customers.

6. Assumptions and Dependencies

Pricing assumes:

- Services are delivered remotely unless otherwise agreed.
- Customers provide timely access to relevant information, systems, sites, and stakeholders.
- Any change to scope or requirements may result in a revised estimate, in line with the service definition.

7. Price Validity

- Prices are fixed for the duration of the G-Cloud 15 framework.
- Rates do not vary by customer type, project size, or delivery location however, preferential rates are applicable for Higher Education customers to support academic innovation.
