G-Cloud 15 Pricing Document

Service Price

Service Description	Unit Price (GBP)	Terms
End-to End Penetration Testing (Networks, systems, applications, APIs, cloud environments)	£1,100 per day	Price includes scoping, testing, reporting, and a debrief session.

Notes:

- The above price is fixed per day of testing.
- Each engagement is scoped individually to reflect the specific systems, depth and days required.

Volume Discounts

Engagement Length	Discount Applied	Terms
6+ days	5%	Applies to total invoice for multiple engagements within a 12-month period.
3 Year Penetration Test Package	10%	Applies to total invoice for multiple engagements within a 36-month period.

Extra Services

Extra Service	Unit Price (GBP)	Terms
Retesting of specified previously identified vulnerabilities	£1,100 per day	Includes verification of remediation for previously reported issues.

Terms

- Prices are exclusive of VAT.
- All prices are fixed for the life of the G-Cloud 15 framework.
- No “Price on Application”, “From”, or price ranges are included.
- Any additional services not listed will be quoted separately as agreed with the client.
