

CWSI.

Stronger security and simpler compliance starts now.

SecureGuard is our suite of managed security services giving you simple, scalable support wherever you need it most.

It's built on Microsoft technology and designed to help you stay secure, compliant, and productive - all at once.

Whether you're managing devices, protecting data, or adopting AI, SecureGuard fits with how your business actually works.

SecureGuard helps you:

Strengthen security without slowing you down.

Keep up with compliance and regulatory demands.

Understand where the real risks lie before attackers do.

Get 24/7 visibility across every device, user, app, or environment.

Simplify the experience for employees, customers and partners.

**Security made human.
Compliance made simple.**

SecureGuard.

SecureGuard

Five modular services, each doing its job,
so you can focus on yours.

AIGuard.

Built on Microsoft Security Copilot.

Confidently adopt AI knowing your data is under control.

Key benefits:

- Protect sensitive data used by AI models.
- Build trust and transparency into AI operations.
- Align with current and upcoming AI regulations.

DataGuard.

Driven by Microsoft Purview.

Protect sensitive data everywhere, prove compliance and reduce operational effort.

Key benefits:

- Discover, classify, and secure sensitive data.
- Maintain compliance with GDPR, NIS2, DORA, ISO, and more.
- Reduce reporting effort and regulatory exposure.

DeviceGuard.

Managed through Microsoft Intune.

Secure and manage every endpoint, from enrolment to retirement.

Key benefits:

- Unified control and visibility across all endpoints.
- Patch, protect, and monitor automatically.
- Balance strong security with frictionless user experiences.

IdentityGuard.

Powered by Microsoft Entra ID.

Continuous protection that keeps the wrong people out and the right people safe.

Key benefits:

- Strengthen identity protection with multi-factor authentication and intelligent access controls.
- Improve productivity by giving the right access, at the right time.
- Stay compliant with identity and access regulations.

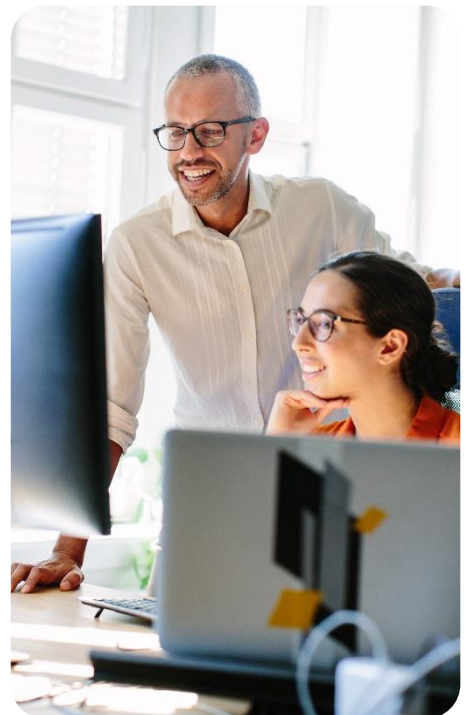

WatchGuard.

Powered by Microsoft Defender XDR.

Always-on protection that spots trouble early, responds quickly and keeps you up and running.

Key benefits:

- Round-the-clock threat visibility and rapid action.
- Lower risk and downtime through proactive defence.
- Reduce internal workload and operational cost.

CWSI.

Security made human.
Compliance made simple.
