

G-Cloud Pricing Document

1 Pricing model overview

Pricing for the Agentic AI & Automation Service depends on the automation platform used, the number of virtual workers required and the volume and complexity of automated processes. The service is priced using a combination of third-party platform licences and AIXON DIGITAL LIMITED service charges.

All pricing is exclusive of VAT. Contract lengths are available for 12 months or 24 months, with scalable capacity during the contract term.

2 Virtual worker licensing (third-party platforms)

Where automation platforms require licensed virtual workers, pricing is based on the supplier's standard commercial rates. Typical ranges are:

- Blue Prism Virtual Workers: £8,000 to £18,000 per worker per year
- UiPath Virtual Workers: £6,000 to £12,000 per worker per year

However, costs do depend on platform edition, deployment model and usage profile.

Licences may be held directly by the customer or supplied via AIXON DIGITAL LIMITED as a reseller, depending on buyer preference.

3 AI-XON Agentic AI/orchestration service

AIXON DIGITAL LIMITED provides an open source, proprietary agentic AI orchestration layer to coordinate workflows, AI agents and integrations.

Licences start at £3,000 per worker per year. Includes workflow orchestration, monitoring and agent coordination

Pricing may vary based on volume, throughput and environment size

4 Professional services pricing

Professional services are provided on a time and materials basis unless otherwise agreed.

- Discovery and design: £1,000 per day
- Automation and AI development: £1,000 per day
- Training and knowledge transfer: £750 per day
- Fixed-price engagements can be agreed following discovery.

5 Support

Standard support is included in the licence fee for technical elements. Extended support hours for process support can be offered as a blanker order or Call Off on a T&M basis.

Support Level	Description	Cost
Enhanced Support	Faster response SLAs, quarterly service reviews	+10% of annual licence cost
Premium Support	24/7 support SLAs, named technical contact, proactive service management	+15% of annual licence cost

6 Scaling and flexibility

Customers may scale the number of virtual workers, workflows or environments during the contract term, subject to commercial agreement. Pricing will be adjusted in line with the applicable unit rates.

7 What pricing includes and excludes

Included:

- Service management and coordination
- Automation configuration and orchestration
- Access to agreed support channels

Excluded:

- Cloud infrastructure costs where hosted in the customer's tenant
- Bespoke integrations beyond agreed scope
