

Whistic - Third Party Risk Management Made Simple

Without sufficient security checks on your supply chain, you're leaving your organisation exposed to compliance failures, data breaches, and reputational damage.

Whistic is a cloud-hosted Third-Party Risk Management (TPRM) platform that automates vendor security assessments, streamlines due diligence, and provides real-time visibility into your supply chain's security posture. It enables faster onboarding, transparent collaboration, and stronger compliance.

Why manual vendor risk assessments often fail

Traditional processes are slow, resource-heavy, and prone to gaps. With increasing regulatory pressure and complex supply chains, manual spreadsheets and email questionnaires simply don't scale.

Supply chain risks Whistic helps you fix

- Sensitive data exposure → Automates security questionnaires and risk scoring
- Compliance gaps → Supports frameworks like GDPR or ISO 27001
- Slow vendor onboarding → Speeds up assessments with pre-built templates and workflows
- Limited visibility → Centralises documentation and provides real-time dashboards
- Vendor frustration → Enables suppliers to share their own Whistic Profile proactively

How Whistic strengthens third-party risk management

- AI-powered assessment automation for faster reviews
- Vendor Trust Catalog for instant access to pre-assessed profiles
- Centralised platform for documentation and audit readiness

- Automated reassessments based on your risk policies
- Seamless collaboration between vendors and internal teams
- SOC 2 Type II certified with enterprise-grade encryption and access controls

Who is this for?

- IT Security & Compliance Teams – Streamlined vendor assessments and monitoring
- Procurement & Vendor Management – Faster onboarding and evaluation
- Business Leaders – Oversight of supply chain risk and resilience
- Legal & Risk Management – Documentation for regulatory compliance
- Vendors/Suppliers – Demonstrate security posture proactively
- Ideal for SaaS providers, regulated industries (finance, healthcare, government), and any organisation handling sensitive data.

What's Included in Your Whistic Service

- Dedicated Whistic portal for managing vendor risk assessments
- Organisation profile setup and customised security questionnaires
- Review and approval workflows with automated notifications
- Assessment of up to 5 vendors during onboarding
- Quarterly check-ins from Trustack to ensure progress
- Automated scheduled reassessments aligned with your risk policies
- Full support for SSO and email notification setup
