

Consultancy Services - Expertise that delivers results

Trustack's consultancy team brings together specialists across Networking, Security, Microsoft, Cloud Migrations, Storage, Infrastructure, and more.

Our consultants combine technical excellence with a client-focused approach to deliver successful outcomes for every project.

Why Choose Trustack Consultancy?

- **Multi-Disciplinary Expertise** - Consultants skilled in networking, security, Microsoft solutions, cloud migrations, storage, and infrastructure.
- **Structured Project Framework** - Every engagement begins with a clear Statement of Works and collaborative design meetings to agree deliverables before any project starts.
- **Dedicated Project Coordination** - Our project coordinators keep all stakeholders informed, manage milestones, and ensure smooth project delivery.
- **Professional Oversight** - The consultancy team is managed by a Professional Services Manager who monitors performance, utilisation, and acts as your main point of contact.
- **Onsite & Remote Engagement** - Our consultants regularly visit client sites to build strong, lasting relationships.
- **Flexible Consultancy Days** - Banked days of consultancy can be drawn down as needed, giving you flexibility and control.
- **Continuous Improvement** - Post-project reviews ensure all deliverables are met and lessons are captured for future success.
- **Ongoing Training & Planning** - Consultants have dedicated time between projects for planning and formal vendor training, meaning they always have the most up-to-date expertise.

How We Work With You - Project Structure

1. Initial Consultation & Design

Collaborative meetings to define your needs and agree on deliverables.

2. Project Delivery

Transparent communication, milestone tracking, and proactive coordination.

3. Post-Project Review

Joint review to confirm all objectives are achieved and identify future opportunities.
